---

## The Department

From its inception in 1970, the Department of Commerce, University of Kashmir has traversed a long way before becoming one of the Centers of Excellence among the Commerce Departments of UGC-approved Indian universities. The Department takes pride in its commendable performance vis-à-vis major developmental indicators such as student intake, number of teachers, published research work and updated curricula. The Department always has highly qualified dedicated faculty. The teachers of the Department have earned a famed recognition. At present, it has 12 whole time teachers and many guest faculty members. Most of the distinguished faculty members have doctoral degrees and are members of various professional institutions.

The Department, in keeping with the advances made in different branches of commerce, has revised the curriculum from time to time. The last revision of curriculum has taken place very recently in 2011. Under the new curriculum, the Department has upgraded to the system of semester-based teaching. Currently, M. Com. Programme offers 22 papers of 100 marks, divided equally in four Semesters.

The Department started its research programme soon after the academic programme of M.Com in early 1970s. One of the greatest strengths of the Department is its Ph.D programme. It is a matter of pride to note that a large number of researchers have been awarded Ph.D. degrees in significant areas of business-related research including HRM, finance, Marketing, Management etc.

The Department in 2005 started a Super-specialized Programme in Finance called Masters in Finance & Control (MFC). This Programme has been a successful professional programme which has helped the growing financial services sector to draw human resources from this programme and the programme's market-fit characteristics have been exemplary as is evidenced from its placement record.

The Department publishes a bi-annual research Journal "*The Business Review*" (ISSN: 0972-8384), which features research-based contributions from reputed researchers of the academia from across the country and is a strong mouthpiece of research activities of the faculty of commerce & management studies.

## The M.Com Programme

The world is changing very fast. The pace of globalization, liberalization and privatization has tremendously influenced the various dimensions of Commerce education.

The masters programme in commerce has been a core programme of the Department of Commerce. The Programme has always remained a highly sought after masters programme for higher learning in the society and the Programme has served well by creating Post-Graduates in an area of knowledge which found most fruitful linkages in the practical world of industry and corporate sector. It supplied the post-graduates with relevant skills that are required for running a modern society. The Programme has always seen up gradations in terms of curriculum improvements while always attuning the curriculum to market requirements. As the economy started becoming service-oriented, new courses reflecting the changing economic scenario were introduced to remain market linked.

## **CBCS: *The New Design:***

Along with several other Departments of the University, the Department of Business & Financial Studies also came up with the new design of syllabus. The curriculum design has been based on three types of Courses viz., the Core Courses, the Allied Electives and the Open Electives. Effective from the academic session 2014, the present programme has “Choice factor” as a hallmark and is interdisciplinary in nature. It also ensures transferability of students’ along with their credits.

The curriculum formulated for the programme in terms of the Course Description, Learning Outcomes, Course Objectives, The learning Resources, teaching pedagogy and Evaluation Strategy has been put for each course.

All the courses so formulated have been chosen on the basis of their utmost relevance to programme.

### **Special features**

- *Blended Programme:*  
A good balance between the theoretical framework and practical knowledge is the main emphasis of the Masters Programme in Commerce.
- *Market-Linked( Job Related):*  
The job market for commerce students is established and ever-growing. Our Post-graduates are working domestically and internationally. Moreover, there is sizeable representation of Commerce post-graduates working in government sector.
- *Experienced Teaching Faculty :*  
The Department of Business & Financial Studies has an excellent teaching team. Faculty members are Ph.D. holders with tremendous scholarly experience or industry professionals possessing sturdy applied skills. Being supportive and practical in teaching, our faculty members are greatly admired by students. Many of the faculty members have international experience as well.

### **General Objectives:**

- *Developing competent and effective professionals to foster intellectual excellence.*
- *Sharpening the student’s analytical and problem-solving skills in Corporate finance, Investment, Insurance and Banking.*
- *Keeping the student in touch with the most up-to-date technologies and information systems by providing access to computerized databases, internet resources, and financial software.*
- *Develop soft skills to enable the organization of people develop good relations among themselves.*
- *Developing and improving the student’s oral and written communication skills through course work, class presentations and writing assignments.*
- *Encouraging the spirit of teamwork and enhancing interpersonal skills through teamwork and group activities in class assignments.*

## **Specific Objectives:**

To provide quality university education in Commerce Programme, this serves the needs of the global requirements of Professionals in the field of Business and allied areas.

- To teach the latest techniques in the field of Commerce education by fostering independent and creative thinking.
- To equip students with knowledge of fundamental research methodologies Covering quantitative or qualitative approaches to empirical research in finance, HRM and Marketing
- To develop students' critical and analytical skills and to encourage the acquisition of autonomous study skills in the learning process.
- To produce students who will have a sufficient variety and depth of knowledge to start careers in the financial sector, most notably in banking, stock broking, derivatives, insurance, regulation and other areas of finance.
- To develop students in the area of HRM and Marketing.
- To provide students the knowledge and analytical skills to pursue higher studies in commerce.

## **Programme Outcomes**

After successful completion of the Programme, the students are expected:

- To cultivate the acumen for entrepreneurship to launch their start-ups and become job providers;
- To sharpen their critical thinking so that they become successful executives in corporate sector;
- To acquire knowledge and skills so as to prepare themselves as professional consultants in the fields of Finance, Accounting, HRM, Marketing. Etc.

## **Career Opportunities for the Pass outs:**

This program has been one of the successful programmes of the University in terms of the placement of its students. Market relatedness is the hallmark of the programme. The course curricula have always been attuned to market-fit requirements. There are many careers within the industrial and service sector for which this program is a good preparation. These include posts with major international and national institutions, such as central banks, commercial banks, other companies.

The above opportunities are usually available in the finance departments of business firms, governmental agencies, brokerage houses and investment banks, or the investment departments within commercial banks, insurance companies, commercial banks, real estate firms, financing companies, financial consulting firms.

## **Representative Job Titles Related to the Programme:**

Financial Accountant, Management Accountant, Marketing Officer, Human Resource Planner// Trainer. Organisational Manager, Comptroller, Bank Executive, Director of Internal Finance, Securities Broker, Financial Manager, Treasurer, Financial Planner, Stock Market Analyst, Bank Trust Officer, Financial Associate, Financial Analyst, Commercial Loan Officer, Bank Branch Manager, Consumer Loan Officer, Commercial Associate, Logistics executive, Researcher, etc; The Programme completion will also facilitate Studies and prepare for professional exams such as CFA, CA, CMA, CS, etc.

## **Representative Employers:**

Banks, Insurance companies, Brokerage Houses, Corporations, Small Businesses, Credit Unions, Merchant Bankers, Issue Management Companies, Mutual Fund Co's, International Marketing Companies, HR Companies, Management Consultant Companies, Non-profit Organizations, Consulting Firms, Governmental Accounting/ Finance Departments, etc.

## **Important instructions for the Programme**

- 1. The P. G. Programme in Commerce comprises of 4 Semesters spread over two academic years.*
- 2. It will have 96 credit weightage i.e. 24 credits per semester (24 X 4 = 96).*
- 3. The student shall have to earn 56 Credits from Core courses and 32 credits from DCE courses in all semesters throughout the M. Com Programme.*
- 4. The students shall have to earn 8 Credits from Generic Electives/Open Electives throughout the M. Com Programme.*

## **Classification of Courses / Papers**

**Core (CR):** Compulsory papers.

**Discipline Centric Electives (DCE):**

Optional papers offered by the Department.

**Generic Electives (GE):**

Optional in nature to be opted from the courses offered by allied departments within the School.

**Open Electives (OE):**

Optional in nature to be opted from the courses offered by any department within the University

# Organisational Behavior

Course Code: COM22101CR

Course Title: Organisational Behavior

Course Type:

Core

## Course Level:

Year 1:	*	Semester 1		Semester 2
Year 2:		Semester 3		Semester 4

## The Course

### Course Description:

This course deals with human behavior in organizations and with practices and systems within organizations that facilitate or hinder effective behavior. Conceptual frameworks, case discussions, and skill-oriented activities are blended within each topic. Topics include personality, perception, stress, learning, communication, motivation, group dynamics, leadership, power & politics, conflict, and organizational design, change and development. Class sessions and assignments are intended to help students acquire the skills that managers need to improve organizational relationships and performance.

### Objectives:

This course is designed to deepen the knowledge of organizational behavior from an individual, group, and organizational perspective; and to encourage students to reflect on and apply this knowledge in ways that will enhance their abilities as a manager. Specific learning objectives include:

1. Understand how application of OB frameworks, tools, and concepts can enhance individual, group, and organizational effectiveness
2. Reflect own beliefs, assumptions and behaviors with respect to how individuals, groups and organizations act in order to expand approaches and increase own organizational effectiveness.

### Course Outcomes:

After going through this course, the students are expected to develop a Clear understanding, knowledge and skills in the field of organisational behavior.

### Skills to be developed throughout the Course:

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, group discussions, role play, Class Room presentations and seminar sessions. While working on Case Studies & group discussions student's creative skills and their abilities will get honed which shall help him in practical life situations?

Course Code: COM22101CR	Max. Marks : 100
M.Com : 1 <sup>st</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module - I

Organizational Behavior: Introduction, Contributing disciplines to OB, Evolution of OB; Challenges & Opportunities to OB. Perception: Process & errors, Improving perceptions. Personality: Theories of Personality, Determinants of Personality.

## Module - I

Attitudes & Job Satisfaction: Measuring Job Satisfaction; Theories of Job Satisfaction; Determinants and Consequences of Job Satisfaction; Motivation: Concept & Theories of Motivation; Learning, Theories & Principles of Learning, Contingencies & Schedules of Reinforcement; Concept of Group Dynamics and Teams, Theories of Group Formation, Team Development.

## Module - I

Stress Management, Concept of stress, Sources & Effects of stress on humans; Management of Stress. Conflict Management: Sources & Types of Conflict, Traditional & Modern view of conflict, Dynamics of Conflict, Conflict Management Styles. Leadership Styles, Models and Theories of Leadership.

## Module - I

Elements of Organizational Structure, Traditional & Modern Organizational Design; Power & Politics: Sources & Consequences of Power, Organizational Politics, Types of Political Activity, Controlling Political Behaviour, Management of Change, Forces responsible for change, Resistance to change, Overcoming resistance to change; Organizational culture: Elements of Organizational Culture, Hofstede's culture typology.

# Accounting for Managerial Decision Making

Code: COM22102CR

**Course Title:** Accounting for Managerial Decision Making      **Course Type**

Core
------

## Course Level:

<b>Year 1:</b>	*	<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

## The Course

### Course Description:

The course is designed to provide a perspective on the Accounting techniques and methods which are useful to managers for making decisions in business settings. The course focuses on developing application oriented skills and comprehension for decision analysis. The techniques and methods which are included in this course are Activity Based Costing, Marginal costing, Differential costing, Inflation Accounting, Human Resource Accounting, Accounting for intangible assets, value chain analysis, Theory of constraints, Learning Curve analysis, Bench marking ,etc.

### Objectives

The broad course objectives are the following:

1. To have a good knowledge of various accounting concepts and techniques used for managerial decision making.
2. To understand the application of these techniques in managerial decision making.
3. To build the capacity of the students for better decision making in the practical business-settings.

### Course Outcomes:

After going through this course, the students are expected to develop a Clear understanding, knowledge and skills in the field of Management Accounting.

### Skills to be developed throughout the Course:

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, practice sessions, Class Room presentations and seminar sessions. While working on Case Studies/ exercises student's creative skills and their abilities will get honed which shall help him in practical life situations? Learners are expected to learn the skills of developing acumen of using accounting analytical techniques to enable them to understand the business situations and provide information to management for decision making. The students are encouraged to make use of IT facilities and relevant software to make managerial decision purposeful.

### The Learning Resources:

The following shall comprise the learning resources

## Text Books

# Accounting for Managerial Decision Making

Course Code: COM22102CR	Max. Marks : 100
M.Com : 1 <sup>st</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module – I

Role of Accounting in decision making. Financial, Cost and Managerial Accounting. Cost Management Systems: Traditional vs. Activity Based Costing systems; Treatment of overheads under Traditional vs. Activity Based Costing (ABC) systems; Design and Implementation of the ABC System. Analysis of Activities, Cost drivers and Cost pools. Cost computation under ABC; Product Profitability Analysis under ABC (with numerical problems).

## Module – II

Marginal Costing: Marginal vs. Absorption costing, Tools of marginal costing ; Cost-volume - Profit- Relationship, Break –even analysis; Marginal Costing and Mgt. Decisions. Differential Costing: Methods and applications; Differential Costing and Mgt. Decisions- Special applications in Make or buy, Change vs. Status quo, Optimum sales mix, Selling or further processing ,Shutdown or Continue, Exploring new market, and Adding or Dropping a Product.

## Module – III

Inflation Accounting: Concept, merits and limitations; Techniques of inflation Accounting - Preparation of Income statement and Balance Sheet under Current Cost Accounting and Current Purchasing Power Techniques. Social Responsibility Accounting: Computation of Social Cost Benefit Analysis. Corporate Social Responsibility ( CSR) under Clause 135 of Companies Act, 2013 and SEBI guidelines; Preparation of Corporate Business Responsibility Report.

## Module – IV

Learning Curve model: Concept, factors affecting learning and experience curve. Application of Learning Curve model in Decision making. Value Analysis and Value Engineering (VAVE) Scope and Process of Value analysis. Applications of VAVE in decision making. Human Resource Accounting: Concept, and importance; Valuation of Human Resources. Accounting for Intangible Assets: concept and Valuation of intangible assets.

# Quantitative Techniques

Course Code: *COM22103CR*

Course Title: Quantitative Techniques Course Type:

Core
------

Course Level:

Year 1:	*	Semester 1	Semester 2
Year 2:		Semester 3	Semester 4

## The Course

### Course Description:

Decision making is what managers do. Some decisions are made largely on the basis of intuitive skills and in many situations this is appropriate. Other decision situations, however, reward use of some of the more formal approaches covered in this course. Still others require both approaches. Successful managers use operations research when: 1. the problem is complex and involves a number of variables; 2. there are data variables which describe the situation; 3. the goals in solving the problem can be specified in quantitative terms; 4. workable models are currently available for these situations. Operations research, therefore, represents an effective approach in handling complex business decision situations. This course is designed with the following objectives in view.

### Objectives:

1. Employ mathematical models in business decision making.
2. Analyze and solve business decision problems.

### Course Outcomes:

After going through this course, the students are expected to develop a clear understanding, knowledge and skills in the area of operations research.

### Skills to be developed throughout the Course:

Students will develop their analytical and decision making skills via case study approach carried out in tutorials, practice sessions, class room presentations and seminar sessions. While working on Case Studies students' decision making abilities will get developed which shall help them in practical business situations. Learners will be encouraged to make use of IT facilities particularly web sites to support research and readings.

## The Learning Resources:

The following shall comprise the learning resources

### Text Books

# Quantitative Techniques

Course Code: COM22103CR	Max. Marks : 100
M.Com : 1 <sup>st</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module - I

Management, Decision Making and Theory of Games: decision making and quantitative techniques, historical development of Operations Research (OR), nature and characteristic features of OR, methodology of OR. Theory of games, the game model, two-person zero-sum game, when no saddle point exists, solution of  $2 \times n$  and  $m \times 2$  games using graphical method, limitations of the theory of games.

## Module - II

Linear Programming: requirements, assumptions, formulation of linear programming problems, the maximization and minimization cases, graphic method, simplex method, duality and post optimality analysis. Transportation problems – north-west corner rule, Vogel’s approximation method, stepping stone method, the modified distribution method, unbalanced transportation problems, degeneracy, transportation problems - the maximization type. The assignment problems, Hungarian method, constrained assignment problems, unbalanced assignment problems, maximization cases.

## Module - III

PERT/ CPM Networks and Simulation: rules of network construction, determination of ES and EF times, determination of LS and LF times, determination of float, PERT, determination of optimistic time, most likely time, pessimistic time, time- cost trade-off. Simulation – process, Monte Carlo simulation, simulation of inventory system, simulation of queuing system, advantages and disadvantages.

## Module - IV

Decision theory and Sequencing: Decision theory – pay off table, opportunity loss table, decision under uncertainty, laplace principle, maximin principle, maximax principle, Hurvicz principle, savage principle. Decision making under risk – maximum likelihood principle, expected principle, expected opportunity loss, expected pay off of the perfect information, utility as a basis of decision criterion. Sequencing: assumptions, Gantt charts, algorithm for solving sequencing problems, processing  $n$  jobs through 2 and 3 machines only.

# Corporate Tax Planning & Management

Course Code: *COM22104CR*

**Course Title:** Corporate Tax Planning & Management **Course Type:**

Discipline Centric  
Elective

**Course Level:**

<b>Year 1:</b>	*	<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

## The Course

### Course Description:

This course will provide a framework for understanding how taxation influences financial and management decisions viz, capital structure, dividends, lease or buy, retain or replace etc. This is achieved by integrating the tax law with fundamentals of financial management. In addition the course focuses more clearly on how companies are assessed with the of Minimum Alternate Taxes provisions (MAT). Besides, the course provides an insight into indirect taxes in form of services and excise taxes.

### Objectives:

1. Understanding the provisions of direct and indirect tax laws;
2. Gaining necessary knowledge of various incentives and benefits under direct and indirect taxes available to business firms.

### Course Outcomes:

After going through this course, the students are expected to develop a Clear understanding, knowledge and skills in the field of Corporate tax planning and management.

### Skills to be developed throughout the Course:

Students will develop their analytical and technical skills via case study approach carried out in tutorials, practice sessions, and seminar sessions. While working on Case Studies student's creative skills and their abilities will get honed which shall help him in practical life situations? Learners are expected to learn the nifty skills of assessing the companies under various provision of I. T. act 1961. Learners are encouraged to make use of IT facilities particularly web sites to support research and readings.

## The Learning Resources:

The following shall comprise the learning resources

### Text Books

Author	Text Bok Title	Publisher	Year	Latest edition to be procured

Srinivas, E.A	Corporate Tax Planning	Tata McGraw Hill Publishing Co. Ltd. New Delhi.	2014-15	

# Corporate Tax Planning & Management

Course Code: COM22104CR	Max. Marks : 100
M.Com : 1 <sup>st</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module - I

Corporate Tax Planning: Concept and Scope and methods of Tax Planning, Tax planning with regard to specific management decisions - Lease and Buy, retain or replace. Tax Planning & Financial Management Decisions: Tax planning and tax implications in developing capital structure; Dividend policy and tax as a variable for calculation of cost of capital.

## Module – II

Minimum Alternative Tax (MAT) - Scheme of MAT, Concept of Zero Tax Company, Computation of Book-profit under section 115JB, Computation of tax liability under MAT provisions. Tax credit in respect of tax paid on deemed income under MAT provision.

## Module – III

Taxation of international transactions- Transfer pricing, computation of the arm's length price, reference to transfer pricing officer, powers to make safe harbor rules, Maintenance of books of account, report from accountant, specified domestic transactions, advance pricing agreement (APA).

Advance Tax Payment for Companies: Pay as you earn scheme, computation of advance tax and interest payable of shortfall of advance tax.

## Module – IV

Returns of income and Assessment: Voluntary return of income, Return of loss, Extension of time, Belated return, Revised return, Defective or incomplete return, Scheme to facilitate submission of returns through tax returns preparers, Filing of return in electronic form, Return by whom to be signed, permanent account number (PAN).

What is self assessment, summary assessment without calling the assessee, Best judgment assessment, Reassessment, Issue of notice for reassessment, Problems on return of income and assessment, Obligations to furnish annual information return.

# Consumer Behaviour & Marketing Research

Course Code: *COM22105DCE*

**Course Title:** Consumer Behaviour & Marketing Research **Course Type:**

Discipline  
Centric Elective

**Course Level:**

<b>Year 1:</b>	*	<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

## The Course

### Course Description:

An essential component of marketing is consumer insight – both the obvious needs and wants that are on the surface of conscious thought, but also the deeper, possibly unconscious motives that drive human behavior at an implicit level. Failure to adequately consider the factors and forces shaping consumer behavior has led to many ill-fated business strategies. Conversely, many well-known companies have shown that a detailed understanding of consumers can serve as a long-term competitive advantage. This course is designed to examine research in psychology, marketing, and related fields in order to learn why consumers behave in the ways that they do.

### Objectives:

1. To familiarize the students with the findings of behavioural science and relating it to the consumer decision – making process.
2. To develop skills needed to conduct consumer research for better understanding and application of research in business decisions.
3. To develop learners understanding necessary for successful marketing decisions.

### Course Outcomes:

After going through this course, the students are expected to develop a Clear understanding, knowledge and skills in the field of Services Marketing.

### Skills to be developed throughout the Course:

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, practice sessions, class room presentations and seminar sessions. While working on Case Studies student's creative skills and their abilities will get honed which shall help him in practical life situations? Learners are expected to learn the skills necessary to understand the basic concepts and tools of marketing and apply them in practice.

## The Learning Resources:

The following shall comprise the learning resources

<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

## The Course

### Course Description:

The course is designed to provide a perspective on Business Ethics, especially, about the unethical practices that today's corporate houses are beset with. In view of the mega scams, embezzlements, money laundering etc that surfaced in the recent past like, debacle of Enron Corp, WorldCom, London Exchange, Tyco, Global Crossing and recently in India Satyam Computers debacle, 2G Spectrum together with Chara & Coal Mine Bidding Gotala are some of the manifestations of an apparent fissure in corporate governance fraught with other ethical issues. The ethical business practices have gathered tremendous momentum ever since the Sarbanes-Oxley Act, 2002 was passed by the US Congress to curb corporate irregularities specifically the financial ones & subsequently the regulator of India also amended Clause-49 to make corporate houses more responsive. In the light of these undesirable happenings & to ward off such debacles in future, the corporate houses are spending huge bucks on training their employees on understanding the tenets of business ethics. The concept of business ethics being oxymoron but the fact of the matter is that today's corporate houses happen to be involved in malpractices in one way or the other together with their employees as is evidenced by host of research surveys. The course would provide insights into the different theories and philosophies highlighting the fundamentals & canons of ethical standards of business. To meet this end the course shall have the following set of objectives that are as under:

### Objectives:

1. To get the students well acquainted with the conceptual & theoretical framework of the Business Ethics.
2. To enable students to understand the various philosophies and theories propounded on the subject under question.
3. To enable students to unearth contributory factors responsible behind unethical practices & developing guidelines for ethical behaviour.
4. To make the students learn fundamental tools, skills and proper acumen, besides taking corrective measures to curb such undesirable situations.
5. Why should business houses carry on their business on sound ethical lines & how the sound ethical business practices contribute towards the effective corporate governance consequently improving upon the overall organizational performance?
6. Last but not least, how ethics and profits go together? An issue being oxymoron in nature.

## Course Outcomes:

At the end of the course the students are expected to have developed a clear-cut understanding and knowledge and set of skills as to how to bring about the ethical standards into the various facets of organizational performance and how best the dreadful menace in terms of scandals and other malpractices at the best could be warded off. They should be able to make succinct and discernable difference when it comes as to why sound ethical business practices do not go against the fundamental economic purpose of business. They should be equipped enough to justify pay-offs accruing to the organization in the long run out of ethical business practices and good corporate governance substantiated by various theories and philosophies propounded on the subject by the great business think tanks. They should equally be able to understand and realize the warning signals of unethical practices consequently have the skill set and tools to curb them at the very outset.

## Skills to be developed throughout the course:

The students shall develop host of skill sets regarding the execution of ethical standards in business that go long way in ensuring the longevity and high organizational performance. The students shall also be able to develop their analytical, conceptual as well as highly competitive skills especially through the case studies, role playing sessions, GDs and class presentations on the host of topics covering the nitty-gritty of the course. Students will be able to deal with the issue like environmental sustainability, consumer's protection act, ethical leadership, responsible and ethical behavior of employees, issue of whistle blowing, protection measures for whistle blowers.

## The Learning Resources:

The following shall comprise the learning resources:

# Research Methodology

Course Code: *COM22206DCE*

**Course Title: Research Methodology**

**Course Type:**

Discipline  
Centric Elective

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>	*	<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

## The Course

### Course Description:

As the scale of business increases every day, the complexities and problems associated with it also increase. So, it becomes crucial for managers to learn an applied scientific method, which he can use for improving his decision making skills. In this connection, the most widely used and applied scientific method is statistics. Data can be collected through questionnaires or through other sources but to interpret it scientifically, sound statistical knowledge is very important. Managers need a conceptual understanding of statistics for the following reasons: (a) to understand how to present and describe information; (b) to understand how a conclusion can be drawn from a sample of small size taken from a large population; (c) to understand the concept of process improvement; (d) to understand how to obtain a reliable forecast of statistical variables of interest.

### Objective:

1. To provide students with the tools and skills necessary to solve business problems by applying the basics of research and statistics.

### Course Outcomes:

After going through this course, the students are expected to develop a basic understanding, knowledge and skills in the area of research methodology and statistics.

### Skills to be developed throughout the Course:

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials , practice sessions , class room presentations and seminar sessions. While working on Case Studies student's creative skills and their decision making abilities will get honed which shall help him in real life situations.

# Research Methodology

Course Code: COM22206DCE	Max. Marks : 100
M.Com : 2 <sup>nd</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module – I

The language of research – concepts, definitions, variables, propositions, hypotheses, theory, and models. Types of research, research process, causal research design- concept, conditions for causality, Questionnaire design steps. Nature and properties of scale measurements, types of scales. Validity in experimentation-internal and external validity.

## Module – II

Probability and probability distribution: History and relevance of probability theory, basic concepts, classical probability, relative frequency approach, subjective probabilities, probability rules, probability under conditions of statistical independence, probability under conditions of statistical dependence, Bay's Theorem, random variables, expected value of random variable, probability distributions- Binomial Distribution, Poisson Distribution, Normal Distribution.

## Module – III

Sampling: reasons for sampling, methods of sampling, sampling distribution, concept of standard error, confidence intervals, sampling from normal population, sampling from non-normal population, central limit theorem, relationship between sample size and standard error,

## Module – IV

Hypothesis Testing: basic concepts, interpreting significance level, selecting a significance level, type I and type II errors, two tailed and one tailed test of hypothesis, hypothesis test of means when population standard deviation is known, hypothesis testing of means when population standard deviation is not known, hypothesis testing using the standard scale. Analysis of Variance: one factor ANOVA, two factor ANOVA.

# Organizational Change & Development

Course Code: COM22207DCE

**Course Title:** Organizational Change & Development    **Course Type:**

Discipline Centric Elective
--------------------------------

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>	*	<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

## The Course

### Course Description:

Organizations face many challenges and pressures, the most significant of which is survival and survival requires constant adaptation, innovation and *change*. This is a practical course that addresses the issues, basic theories and methods associated with organizational change and development in contemporary organizations. In this course, students will be exposed to a number of organizational issues including, the need for change, why organizations change or fail to change, the legal and regulatory issues associated with change, and how change helps organizations become more competitive and profitable. In this course, participants will be introduced to both historical and contemporary theories and methods of introducing change in organizations, leading change, the ethical issues of surrounding and management techniques for effectively changing an organization. The course also explores the role of leadership in change and how leaders effect change. In this class, we explore and discuss the need and nature of planning for change, managing change, and measuring change in the context of many different situations, companies and industries. We explore various methods for change, the process steps for changing an organization and different analytical methods associated with assessing, planning, managing and measuring change.

### Course Objectives:

The primary objectives of this course are to:

1. Provide you with an opportunity to become familiar with the basic theories of “change and development of management.”
2. Develop an awareness and fundamental knowledge of the need for organisational development, why organizations change or fail to change, and how to plan for, manage and measure change.
3. Develop an awareness of the leadership issues and role of the leader in organizational change, and development.
4. Help further develop and expand your critical thinking and analytical skills.
5. Developing a basic understanding and appreciation for the issues and conditions creating the need for change in modern organizations.

6. Exploring some of the ethical issues associated with change and organizational development.
7. Developing an understanding of the strategic role of change in the organization and the impact of change (or failure to change) on organizational performance.
8. Developing a basic understanding and fundamental knowledge of the models and theories of change management.
9. Developing a basic understanding of how organizations behave and react to change, why change efforts can fail, overcoming organizational resistance, and making change possible.
10. Learning how to apply some of the key concepts and tools organizational development and change leadership and management.

### **Course outcomes:**

Learning basically is the fundamental knowledge of change and change theory and providing a foundation for developing your management talent and business acumen for change. At the end the course the student would be in the position to explore the role of leadership in change and how leaders effect change. Further, students would explore and discuss the need and nature of planning for change, managing change, and measuring change and importantly the organisational development in the context of many different situations, companies and industries. They should be able to explore various methods for change, the process steps for changing an organization and different analytical methods associated with assessing, planning, managing and measuring change. The course is oriented to contemporary business topics and students are expected to participate in class. Learning teams, individual assignments, formal cases, and a textbook are used to facilitate knowledge development and transfer.

### **SKILLS TO BE DEVELOPED THROUGHOUT THE COURSE:**

The students shall develop the learning about how to distinguish, evaluate and analyze process from content issues. Developing an overall awareness of change as relates to a number of different companies and industries, including the issues associated with operational change, process change, cultural change, technology change, strategic repositioning and human relations. Student should understand the execution of organisational development and change in business that goes long way in ensuring the longuity and high organizational performance. It will develop the learning among the students how to apply a basic change management process in an organization. The students shall also be able to develop their analytical, conceptual as well as highly competitive skills especially through the case studies, role playing sessions, GDs and class presentations on the host of topics covering the nitty-gritty of the course. Having lots of fun learning cool stuff that student can use in their career!

# Mutual Funds

## Course Code:22210DCE

Course Title: Mutual Funds

Course Type: DCE

### Course Level:

Year 1	Semester 1	Semester 2*
Year 2	Semester 3	Semester 4

### Course Description:

This course describes the world of investments in Mutual Funds

### Objective of the Course:

The main objective of this course is to develop an understanding of the students about rationale and significance of investments in mutual funds, different types of funds/schemes and how to choose funds for investment.

### Course Outcomes:

On completion of this course, students are expected to:

- Have an understanding of the structure of fund industry in India & how it operates.
- Know the landscape of fund schemes & able to analyse different schemes.
- Be able to know how yield maximum from investments in mutual funds.

### Learning Resources:

#### Text Books:

The prescribed text book for this paper is Mutual Funds: A Beginners & Advanced Module by *NCFM*. However, to supplement the recommend text, you would be required to consult the following text books as well to have a comprehensive understanding of the subject:

Author	Title	Publisher	Year of Publication
Ankit G. & Jitendra	Indian Mutual Funds	Tata McGraw Hill Publishing House, New Delhi	2008
Sundaran Sankaran	Indian Mutual Funds, Hand Book, 5 <sup>th</sup> Edition	Prentice Hall Delhi	2004
Jaspal Singh	Mutual Funds: Growth, Performance & Prospects	Tata McGraw Hill Publishing House, New Delhi	2005

**Case Studies:** The class room teaching will be reinforced and supplemented by case studies and term end projects:

### Teaching Pedagogy:

To achieve the learning goals set for the paper, the teaching pedagogy to be used consists of lectures, case studies, project work, presentations & assignments. For case studies, the students will be organized into teams of 3-4 members and each team would be required to make one case presentations. Each team will also have to undertake term-end project work which is intended to provide an opportunity for real world analysis. After completion of the project work, each team shall have to prepare a project report for its submission and based on this report make a power point presentation of the project work. Assignments will be given after completion of each

Module/ subsection which will be drawn from end-of-chapter problems in the text and occasional handouts. They are primarily for applying the knowledge acquired through lecturing and class room discussion and are due at the completion of the Module or subsection.

**Class Participation:**

Each student is expected to engage in active class participation so as to maximize his own learning experience and contribute positively to the classmates. It is important that you attend all the classes. If you miss the class, your learning will be impaired. Equally important is that you can add your unique insights to class discussion.

**Current Events:**

For meaningful understanding, it is important to keep abreast of current events that are relevant to the topics covered in the Newspapers as The Economist, The Company Secretary, Dalal Street, Wall Street, Business Standard and Economic Times.

Although this paper schedules only two formal hours of lectures per week, students are expected to devote at least two additional hours each week in reading and revision and attend any tutorials that may be offered. We hope that you will think about issues discussed in the classroom after the lecturers, read the textbook and complete the revision problems that were have assigned.

**Internal Assessment:**

There are 20 marks for internal assessment, the distribution of which will as following:

Case Presentation	20%.....	4 Marks
Term Project	50%.....	10 Marks
Class Participation	10%.....	2 Marks
Graded Assignments	15%.....	3 Marks
Attendance	05%.....	1 Mark

# Mutual Funds

Course Code: COM22210DCE	Max. Marks : 100
M.Com : 2 <sup>nd</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## UNIT-I

**Introduction of Mutual Funds:** Concept of Mutual Funds, Benefits of investing through Mutual Funds. Types of Mutual Funds, Structure of Mutual Funds in India, Key constituents of Mutual Fund- Sponsor, Asset Management Company, Fund Managers and Custodians, Classification of Fund Schemes.

## Module - IV

Receivables Management: Meaning and objectives of Receivables management, Credit policy variables and Collection Policy, Credit Granting decision process, Control of Accounts receivables.

Cash Management: Meaning of Cash, Motives for Holding Cash, Methods of accelerating and Decelerating cash flows; Methods of determining optimum Cash Balance, Forms of Liquidity, Choosing the Liquidity Mix, Management of Surplus Cash.

**Note: This paper shall have 50% numerical and 50% theoretical question**

# Industrial Relations

Course Code: COM22303CR

Course Title: Industrial Relations

Course Type:

Discipline  
Centric Elective

Course Level:

Year 1:		Semester 1		Semester 2
Year 2:	*	Semester 3		Semester 4

## The Course

### Course Description:

Recent years have witnessed an increasing degree of globalization of economies, Appreciation of Industrial relations policies and practices of major economies would be necessary efficiently in the liberalized environment. This course serves as an introduction into the field of industrial relations. Students will learn about the history of the industrial relations, labor unions, grievance management, collective bargaining etc. In addition, we will review how the industrial relations system in the India works in general, as well as specific areas such as the future of unions in the Indian companies. This course deals with analyzing both the traditional pluralistic perspectives of industrial relations (IR) as they have evolved over the years and the transformation that the subject has undergone at the global level. The hallmark of contemporary IR is its tendency to become unitarist and to merge in the wider rubric of the emerging discipline of human resource management (HRM). The course emphasizes various issues in management of IR in the HRM - dominated context of the modern business environment and developing in the participant's skills in managing these issues in general and in the Indian context in particular.

### Objectives:

This course intends to develop necessary understanding among students of various labour management relation issues and policies in the Indian Context in particular. Specifically, the course aims at:

1. Making students to understand industrial relations systems;
2. Developing awareness among students of various actors of IRS (mgt, workers, union & Govt.).
3. To impart knowledge of the contents of the laws relating to Trade Unions, Standing Orders and Industrial Disputes. )
4. To enable the students to interpret and apply these laws.

**Course Outcomes:**

After going through this course, the students are expected to develop a Clear understanding, knowledge and skills in the field of Industrial relations.

**Skills to be developed throughout the Course:**

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, group discussions, role play, Class Room presentations and seminar sessions. While working on Case Studies & group discussions student's creative skills and their abilities will get honed which shall help him in practical life situations?

**The Learning Resources:**

The following shall comprise the learning resources

# Project Dissertation

Course Code: COM22305DCE

Course Title: Project Dissertation

Course Type:

Discipline  
Centric Elective

Course Level:

Year 1:		Semester 1		Semester 2
Year 2:	*	Semester 3		Semester 4

## Project Dissertation

Course Code: COM22306DCE	Max. Marks : 100
M.Com : 3 <sup>rd</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

The following criteria will be adopted for ascertaining the eligibility of students towards taking up Project Dissertation.

- 1) 25% of the total intake capacity of (86) students will be taken for admission.
- 2) Each student desirous of taking up Project Dissertation shall necessarily take up and pass up Research Methodology course. As such Research Methodology is a pre-require to course for Project Dissertation.
- 3) The Project Dissertation be taken up individually and not in group/s.
- 4) Merit will be the basis for admission to Project Dissertation. For this purpose, student Entrance Score will be the determining factor for ascertaining the merit.

This paper would be of 100 marks divided into two components viz:

- (a) Project Report Writing and (b) Viva-Voce.

### Component (a)

#### Preparation of Project Report: Marks 75.

The student would be required to submit a Project Report on a topic identified by the Department. For this purpose the students would be allotted to various teachers of the Department who would guide and supervise their project work. Preparation of the report should follow the guidelines given below:

- (1) The topic should be related to Business/Commerce/Management.
- (2) The report should be Presented in the format as under:
  - (a) Introduction of the Problem,
  - (b) Objective & Methodology,
  - (c) Results & Discussions.

(3) The report may be based on a survey/Library Material (Descriptive).

(4) All the students of M.Com who complete the project report shall be required to submit the report in office of the Head Department of Commerce. In case of Directorate of Distance Education and other affiliated colleges of the University where M.Com. is being offered, the concerned Coordinator/Head of the Department shall receive the Project Reports of his/her students & forward them to the Head, Department of Commerce, University of Kashmir for evaluation.

### **Evaluation of Project Report:**

The Project Report would carry (75%) 75 out 100 marks for report writing. This shall be evaluated by an external examiner nominated by the department.

### **Component (b)**

#### **Viva-Voce: 25 Marks**

The above Project Report would be followed by a comprehensive viva-voce conducted by an external expert/examiner to be approved by the Vice-Chancellor from the panel of examiners to be submitted by the Head of the Department for the purpose. The Weightage will be 25% of 100 Marks (25 Marks). The said Comprehensive Viva Voce shall be held in the Department of Commerce, University of Kashmir, for all the students including the students of the affiliated colleges where M.Com. is offered and the students of Directorate of Distance Education, University of Kashmir.

# Production Management

Course Code: *COM22306DCE*

**Course Name:** Production Management

**Course Type :**

Discipline  
Centric Elective

## Course Level:

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>	*	<b>Semester 3</b>		<b>Semester 4</b>

## The Course

### Course Description:

This course gives you an introduction to the functional area of production and operations management as practiced in manufacturing industries and the services sector. It includes decision-making, facility location, facility layout in manufacturing and services industries, waiting lines, quality control, just-in-time systems, forecasting, aggregate planning, inventory management, materials requirements planning (MRP), and operations scheduling.

### Objectives:

1. To develop an in-depth understanding of the students of the basic concepts of production management and materials management.
2. To make the students understand the theories and considerations needed to take into account plant location and plant layout decisions.
3. To develop the knowledge and skills needed to plan and control manufacturing of goods and services in an industrial setting.

### Course Outcome:

After going through this course, the students are expected to develop a Clear understanding, knowledge and skills in the field of Production & Materials management.

### Skills to be developed throughout the Course:

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, practice sessions, Class Room presentations and seminar sessions. While working on Case Studies student's creative skills and their abilities will get honed which shall help him in practical life situations? Learners are expected to learn the nifty skills of developing an acumen of using operations techniques to enable them solving a few operational problems such as scheduling, forecasting, inventory control, project management, MRP, etc

## The Learning Resources:

The following shall comprise the learning resources

## Text Books

# Production Management

Course Code: COM22306DCE	Max. Marks : 100
M.Com : 3 <sup>rd</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module – I

Production Management: Nature and Significance of Production Management; Types in manufacturing systems: project, jobbing, batch, line, mass, continuous. Production Models, Plant location; factors affecting plant location, location theories, Location Models. Gibsons model, split location and multi plant location. Plant Layout: Meaning , definition and scope. Factors influencing facility layout. Principles of layout, Layout types and planning.

## Module – II

Inventory Management: Meaning, Definition and Objectives of Inventory management, Types of inventories and cost of inventories. Inventory management and control, process of inventory management and control, Techniques of Inventory Control, Perpetual and periodic inventory systems; Materials Requirement Planning (MRP), Just in time system. Materials management: Integrated concept, material planning and budgeting. Materials Budget, management of Supply – Bayesian Analysis. Purchasing: Vendor Selection, Vendor Rating, Negotiating, Learning Curve Concept, Make or Buy Decision.

## Module – III

Production Planning & Control: Need and objectives of Production Planning & Control, Techniques of production control, routing, scheduling, dispatching and follow-up. Quality Control: Meaning, Need and objectives of quality control. Quality costs; Tools and techniques for quality improvement and control; Quality Audit, Bath Tub Curve, Total Quality Management. ZD Approach. Concept of Six Sigma and its application.

## Module – IV

Productivity: Productivity Improvement Techniques: Work Study; Method Study; Work Measurement: Time Study: Stop Watch Time Study; Motion Study Development, Work Sampling. Maintenance: Maintenance Policies for Facilities and Equipment.

# Strategic Human Resource Management

Course Code: COM22307DCE

**Course Title:** Strategic Human Resource Management

**Course Type:**

Discipline Centric  
Elective

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>	*	<b>Semester 3</b>		<b>Semester 4</b>

## The Course:

The SHRM is a specialized version area of HRM in which major focus is on formulation & the critical role of human resource in its success. Now it is widely believed that talented employees are invaluable and often irreplaceable assets for the organizations. It is in view of this indispensability of HR, that the success or failure of any strategy is generally attributed to the people and has eventually gave birth to the subject like strategic HRM, where the focus is on the actions that differentiate the firm from its competitors besides it considers the people as a 'Strategic Resource' for achieving competitive advantage which is considered necessary for the longevity & long term impact on the success of the organization.

## Course Objective:

The object of this course is to familiarize the students about the strategic importance of HR & their critical role in the successful formulation and implementation of the organizational strategies. This course would equip the students with strategic weaponry so as to enable themselves to counter the unfavorable & highly challenging situations that the organizations many face often due to currently technological onslaught and highly volatile situations & competitive moves of competitors and apply the strategy tools and techniques to stay in competition longer besides the major emphasis of this course concerns the strategic use of human resources within the firm by many actors.

## Course Outcomes:

After studying this course:

1. *The students will be able to understand the significance of SHRM and its linkages with the business strategies*
2. *Students will learn about the effective implementation of HR Strategies aligning them with the business strategies; and*
3. *How to acquire, attract and retain the highly talented workforce through an effective performance and compensation management system in the organization.*

## Learning Resources: Text Books:

4. *S. K. Bhatia, Strategic Human Resource management, Deep & Deep Publications, New Delhi.*
5. *Rao, T. V., Verma, Anil K. Khandelwal & E. Abraham, Alternative Approaches & Strategies of Human Resource Development, centre for HRD, New delhi, XLRI, Jamshedpur, Rawat Publications, Jaipur.*
6. *Mathur, B. L, Human Resource Development: Strateigc Approaches and Experiences, Arihant Publishers, Jaipur.*
7. *James W. Walker, Human Resource Strategy, McGraw Hill, Boston.*
8. *Michael Armstrong, Stratregic HRM, Kogan Publishers, London.*
9. *Lynda Gratton & Others, Strategic human Resource Management.*

# Strategic Human Resource Management

Course Code: COM22307DCE	Max. Marks : 100

The course is intended to acquaint the students with necessary analytical skills in the area of management of risk involved in business. Risk management both in the financial markets and as well in the financial institutions has assumed greater significance with the developments like increase in market volatilities, opening up of markets, advancements in technology etc. The course comprises of conceptual issues in risk management, measurement tools and finally development of institution wide risk management framework with particular emphasis on the banking and financial firms. The course requires basic understanding of statistics and mathematics from students to train them in the area of risk measurement and modelling.

### Objectives:

1. To build conceptual understanding about various financial risks;
2. To learn measurement and management of principal financial risks;
3. To understand ALM as a broader risk management system in banks.

### Course Outcomes:

After going through this course, the students are expected to develop a clear understanding, knowledge and skills in the field of Risk Management.

### Skills to be developed throughout the Course:

Students will develop their analytical and application skills via case study approach carried out in tutorials, practice sessions, class room presentations and workshop sessions. While working on case studies and development of risk measurement models, analytical skills of students will get sharpened that would help them later in real and practical life situations. With the help of virtual softwares like excel and other free source application tools, students are expected to develop and acquire necessary risk measurement skills which will help them to deal with complex risk issues involved in the financial investments and other transactions done in the with banks and financial markets.

# Financial Risk Management

Course Code: COM22310DCE	Max. Marks : 100
M.Com : 4 <sup>th</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module – I

Introduction to Risk Management: Risk and Uncertainty, Financial Risk Management Concept, Objectives, Major Financial Risks, Market Risk, Credit Risk, Liquidity Risk, Solvency Risk, Operational Risk, Interest Rate Risk, the banking book, the trading book and off balance sheet exposures: types and associated risks,

## Module – II

Market Risk, computing returns, Volatility measurement: issues involved. Value at Risk (VaR): caveats, parameters, Correlation effect, Analytical VaR, Historical Simulations VaR, Back testing, Credit Risk: Drivers, Probability of default, Measuring Credit exposure, Loss given default, measurement of expected credit loss, unexpected credit loss.

## Module – III

Operational Risk: definition, peculiarity, Factors, Cause-effect relationship concept, Measurement Methods, earnings volatility method, CAPM based method, Operational risk management process, Regulatory Approaches for treatment of operational risk exposure- Basic Indicator Approach, Standardized Approach and Loss Distribution Approach

## Module – IV

ALM – Concept, Evolution and scope. Interest Rate Risk (IRR): Sources of IRR, models for IRR measurement, Reprising gap model, maturity model, concept of duration and convexity, price-yield relation, duration model, liquidity risk: dimensions, measurement of liquidity gaps, type of gaps. Risk Management Process.

# Behavioral Finance

## Course Code: 22311DCE

**Course Title:** Behavioral Finance

**Course Type:**

DCE

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>	*	<b>Semester 4</b>

## The Course

### Course Description:

The course is designed to provide a perspective on issues on the subject of Behavioural Finance. Behavioural Finance is extension of Traditional Finance with emphasis on role of human psychology that drives people to make certain financial choices, thus impacting the functioning of financial markets. It focuses on explaining why investors often appear to lack self-control, act against their own best interest, and make decisions based on personal biases instead of facts. This course would serve as basic course for students to get well-versed with evolution of Behavioral Finance issues and its application in Finance. It is also expected to make them familiar with the human biases and various financial market anomalies. The thrust of the course would be how such biases lead to market anomalies and challenge well know market efficiency theories.

### Objectives:

3. To acquaint the students with main concepts in Behavioral Finance;
4. To equip the students with the knowledge of how human biases work and lead to formation of anomalies;
5. To become better literate in finance on how human psychology affects markets .

## Course Outcomes:

After going through this course, the students are expected to develop a clear understanding, knowledge and skills in the field of Behavioral Finance and its role in markets. The learner is expected to specifically know:

- 6) Fair understanding of theories of finance.
- 7) Conceptual issues in Behavioral Finance.
- 8) Various human biases that affect markets.
- 9) Main financial market anomalies.
- 10) How anomalies challenge traditional theories of Finance.

## Skills to be developed throughout the Course:

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, practice sessions, Class Room presentations and seminar sessions. While working on Case Studies student's creative skills and their abilities will get honed this shall help him in practical life situations. Learners are encouraged to make use of IT facilities particularly web sites to support research and readings.

## The Learning Resources:

The following shall comprise the learning resources

### Text Books

Author	Title	Publisher	year	Latest Edition to be procured
Sulphey M. M	Behavioral Finance	PHI Learning Private Limited.	2014	
Chandra Prasana,	Behavioral Finance	McGraw Hill Education India Private Limited.	2020

# 4<sup>TH</sup> SEMESTER

# Advanced Financial Management

Course Code: COM22401CR

**Course Title:** Advanced Financial Management

**Course Type:**

Core

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>	*	<b>Semester 4</b>

## The Course

### Course Description:

This is an advanced course in corporate finance providing a rigorous study of capital budgeting procedures, capital structure decision, dividend policy and corporate restructuring using strategies of mergers & acquisitions. It develops an understanding of the rapidly evolving theory of finance and presents an application of analytical techniques to take decisions regarding the above stated areas of corporate finance. Computer applications are integrated throughout the course to aid the analyst in financial analysis

Course on corporate finance is a pre-requisite for this course therefore, a sound understanding of the course is essential to pursue this course successfully.

### Objectives:

The main objective of this course is to develop an understanding of the significance of various corporate finance decision areas like capital investment decision, capital structure decision, dividend policy, and mergers & acquisitions in the maximisation of shareowners wealth and application of analytical techniques to evaluate these decisions based on the philosophy of creating superior value.

### Course Outcomes

On completion of this course, students are expected to:

- Understand finance theory as it applies to corporate financial decision making and to understand its implications for problem solving.
- Be able to estimate cash flows for a capital investment project and based on those cash flow estimates, assess financial viability after taking into account the risk involved in the investment project.
- Be able to apply the principles of capital structure in the determination of an appropriate level of debt for a company.
- Understanding the significance of a feasible dividend policy and how to determine a suitable policy which in the long run contributes to the maximization of shareowners value.
- Be able to analyse mergers & acquisitions and understand how such transactions can create value.

## The Learning Resources:

The following shall comprise the learning resources

### Text Books:

The prescribed text book for this paper is *Financial Management by I M Pandey*, 10<sup>th</sup> edition, Vikas Publications Ltd, New Delhi. However, to supplement the recommended text, you would be required to consult the following text books as well to have a comprehensive understanding of the subject:

Author	Title	Publisher	Year of Publication	Latest Edition to be procured
Chandra, Prasana	Financial Management, Theory & Practice	Tata McGraw Hill Publishing House, New Delhi	2008	
Hampton Jhon	Financial Decision Making	Prentice Hall Delhi	2004	
Khan, Jain	Basic Financial Management	Tata McGraw Hill Publishing House, New Delhi	2005	
Ravi M. Kishore	Financial Management, Comprehensive Text Book with Case Studies	Taxmann Publication (P.) Ltd., Delhi	2009	
James C. Van Horne, Jhon M. Wachowicz, Jr.	Fundamentals of Financial Management	Prentice Hall of India, Delhi	1995	

**Case Studies:** The class room teaching will be reinforced and supplemented by case studies and term end projects

### Teaching Pedagogy:

To achieve the learning goals set for the paper, the teaching pedagogy to be used consists of lectures, case studies, project work, presentations & assignments. For case studies, the students will be organised into teams of 3-4 members and each team would be required to make one case presentation. Each team will also have to undertake term-end project work which is intended to provide an opportunity for real world analysis. After completion of the project work, each team shall have to prepare a project report for its submission and based on this report make a power point presentation of the project work. Assignments will be given after completion of each Module/ subsection which will be drawn from end-of-chapter problems in the text and occasional handouts. They are primarily for applying the knowledge acquired through lecturing and class room discussion and are due at the completion of the Module or subsection

### Class Participation:

Each student is expected to engage in active class participation so as to maximise his own learning experience and contribute positively to the classmates. It is important that you attend all the classes. If you miss class, your learning will be impaired. Equally important, you cannot add your unique insights to class discussion.

**Current Events:**

For meaningful understanding, it is important to keep abreast of current events that are relevant to the topics covered in the course e.g. dividend taxation, corporate governance, mergers and taxation, etc. Be an aggressive consumer of such periodicals & News Papers as The Economist, The Company Secretary, Applied Finance, Business Standard, and Economic times.

Although this paper schedules only four formal hours of lectures per week, students are expected to devote at least six additional hours each week in reading and revision and attend any tutorials that may be offered. Many of the concepts you encounter may be new to you. We will guide you through the learning process in lectures. Gaining a deeper understanding will require effort from you. We hope that you will think about issues discussed in class after the lectures, read the textbook and complete the revision problems that we have assigned.

# Advanced Financial Management

Course Code: COM22401CR	Max. Marks : 100
M.Com : 4 <sup>th</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module – I

Capital Budgeting Decision: Meaning, Significance and Process of Capital Budgeting, Capital project classification, Estimation of Cash flows: Project Evaluation Techniques- Payback period method, Average rate of return, Net present value, Internal rate of return, Profitability index, and Modified internal rate of return. Capital Budgeting under conditions of Risk and Uncertainty. Meaning of risk; Risk analysis techniques- Conventional Techniques & Sensitivity analysis, Scenario Analysis, Simulation, Standardization of probability distribution, and risk adjusted rate of return.

## Module – II

Leverages: Operating leverage and Financial Leverage; Degrees of Leverage, and uses of leverage. Capital Structure: Theories of capital structure. Factors affecting Capital Structure, Capital structure Decision; EBIT-EPS Analysis, ROI-ROE analysis, Ratio analysis and cash flow analysis

## Module - III

Dividend: Meaning of dividend, Forms of Dividend, Types of Dividend. Dividend Decision and Share Valuation: Walter's Model, Gordon's Model, Traditional Approach, and Miller & Modigliani Model, Different Dividend policies. Factors affecting divided decision. Stock Split, Buy Back of Shares and, Bonus Shares.

## Module – IV

Mergers and Acquisitions: Forms, Types and Reasons for Mergers and Acquisitions. Legal Procedures for Mergers and Acquisitions, Forms of compensation. Financial Analysis of Mergers & Acquisitions Anti-takeover strategies, Leveraged Buyouts, Joint Ventures, Portfolio Restructuring.

*Note: This paper shall have 50% numerical and 50% theoretical question*

# Strategic Management

Course Code: COM22402CR

Course Title: Strategic Management

Course Type:

Core

## Course Level:

Year 1:		Semester 1		Semester 2
Year 2:		Semester 3	*	Semester 4

## The Course

### Course Description:

The course is designed to provide a wider perspective on Strategic Management especially about the situations like, cut-throat competition, fast changing business scenario, difficulty for survival besides, maintaining the competitive outlook. To break the jinx of maintaining status quo and taking an ambitious march towards growth & profitability. As is also amply evidenced by the research works that organizations that engage in strategic management generally outperform those that do not. Similarly, the attainment of an appropriate match, or “fit” between an organization’s environment & its strategy, structure, & processes has positive effects on the organization’s performance. Over the past few decades, everything has changed, like the integrated internationalization of markets & corporations, has changed the way modern corporations do business, like jobs, knowledge & capital are now able to move across borders with far greater speed & far less friction than was possible only a few years ago. As more industries become global, strategic management is becoming an increasingly important way to keep track of international developments & position a company for long term competitive advantage. Established models on strategic management, and an extensive study of internal & external environmental dimensions would serve as major ingredients to the course structure. In view of the above realities, the present course has been designed to enable student to understand various dimensions of strategic management with the help of following set of objectives:

### Objectives:

1. To get the students well familiarized with the conceptual & theoretical framework of the strategic management.
2. To help them in developing and nurturing a competitive outlook & entrepreneurial mindset
3. To improve their understanding regarding rapidly changing business environment both national & international.

### Course Outcomes:

At the end of the course the students are expected to offer outcomes in the following manner:

- To have developed a proper understanding, knowledge and an adequate set of skills about the formulation (crafting) and implementation (execution) of strategic management.
- To have acquired consummated skill in developing robust organizational Vision and

Mission Statements as a roadmap for organizational future direction it intends to steer into.

- To have proper & critical understanding about the internal & external dimensions of environment scanning besides, the global challenges.
- To be able to develop both offensive (competitive) and defensive (cooperative strategy) to ward off strategic slips.
- To have acquired appropriate knowledge about identifying various competitive forces operational in a particular competitive arena.
- To gain alacrity and grit in finding out the strategic fit between the environmental challenges and the organizational capabilities.
- To gain ability and acumen in evaluating and controlling the strategies and operations of the business.

### **Skills to be developed throughout the course:**

The students shall develop host of skills & dexterities in crafting strategies to meet the competitive challenges whether at the national or at the global level. The students shall also be able to develop their analytical, conceptual as well as highly competitive skills especially through the case studies, role playing sessions, GDs and class presentations on the host of topics covering the nitty-gritty of the course. Students will be able to deal with the issue like environmental sustainability, strategic alliances, outsourcing /off shoring. The students shall be able to translate their theoretical learning into practical life situations. The tedious and tough phase of the strategic management is considered to be the implementation phase, the course shall duly make students able to understand the niceties and challenges of this crucial phase, takes a toll on organizational structure, culture, leadership and all the contours and power and politics. Besides, all the relevant websites, literature and other course related inputs shall be made available to the students in order to enhance their existing levels of knowledge about the strategic management. The students will, however, be encouraged to make the use of information technology facilities especially for supporting research and readings on the course under question.

## **The Learning Resources:**

The following shall comprise the learning resources

### **Text Books**

<b>Author</b>	<b>Title</b>	<b>Publisher</b>	<b>year</b>	<b>Latest Edition to be procured</b>
Charles Hill & Gareth Jones.	Strategic Management: An Integrated Approach	Houghten Miffin Co. Boston	2009

# Services Marketing

Course Code: COM22404DCE

**Course Title:** Services Marketing

**Course Type:**

Discipline  
Centric Elective

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>	*	<b>Semester 4</b>

## The Course

**Course Description:**

This course aims to help learners appreciate the ever increasing significance of services in the economies worldwide and specifically, in the marketers' scheme of things. The developed economies are dominated by services and all companies view 'services' as critical to sustained growth. While the importance of services is ever growing, the challenges faced by the managers are unique and severe, the services sector being so diverse in nature. From giant international airlines, banks, hotel chains, insurance, telecommunications, and government to locally owned or operated small businesses like laundry, beauty salons, cyber-cafes, and many business-to-business services, the marketing-relevant issues can be as wide as one can imagine. This course takes a strategic and multi-disciplinary approach to the management of service businesses and provides students with the opportunity to apply the key concepts to practical business situations.

**Objectives:**

1. To developing knowledge for services marketing concepts and practices used for managerial decisions.
2. To developing skills needed to tackle issues involved in marketing of services and customer relationship management.
3. To develop students understanding necessary for successful marketing of service.

**Course Outcome:**

After going through this course, the students are expected:

1. to develop a Clear understanding, knowledge and skills in the field of Services Marketing.
2. The students are expected to analyse situations to take decisions about Services mix to be offered to the consumers
3. To decide about issues related to relationship marketing in the light of 10,0001 to 10,0003.

**Skills to be developed throughout the Course:**

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, practice sessions, class room presentations and seminar sessions. While

working on Case Studies student's creative skills and their abilities will get honed which shall help him in practical life situations? Learners are expected to learn the skills necessary to understand the basic concepts and tools of marketing and apply them in practice.

## The Learning Resources:

Registration: Significance of registration, Liable for registration Under GST, Procedure for registration.

### Module – III

Tax invoice, Credit & Debit notes: Invoice under GST, importance, Tax invoice/bill of supply to be issued by a registered person, Contents of Tax invoice, Receipt voucher, Refund voucher, Payment voucher & Revised Tax invoice, Provisions regarding tax invoice in special cases given under rule 54, Provisions regarding transportation of goods without issue of invoice, Provisions pertaining to collection of tax & its indication in invoice, Credit & Debit Notes, Problems on tax invoice, credit & debit notes.

### Module – IV

Returns, Tax Payments & Interest: Basic features of GST returns mechanism, Different GST returns, Matching, Reversal & reclaim of input tax credit, Electronic Liability, Credit & Cash ledger, Different assessments under GST, Interest applicable under GST, Penalty under GST, Significance of national anti-profiteering authority in GST, Provisions regulating e-way bill in GST, Provisions regulating e-commerce, Mechanism of TDS under GST, Provisions regulating audit in GST.

# Labour Laws & Legislation

Course Code: COM22406DCE

Course Title: Labour Laws & Legislation

Course Type:

Discipline Centric  
Elective

Course Level:

Year 1:		Semester 1		Semester 2
Year 2:		Semester 3	*	Semester 4

## The Course

### Course Objectives:

To make students familiar with the various welfare measures and the legislations governing labour practices in India.

### Course Outcome:

After going through this course, the students are expected to develop a clear understanding, knowledge and skills in the field of labour law and legislation.

### Text Books:

1. Saxena, R.C.: *Labour Problems and Social Welfare in India*.
2. Barwell and Kar: *Law of Service in India, Vol. II (1956), Service in Industries*.
3. Vaid, K.N.: *Labour Welfare in India*.
4. Johari, C.K.: *Issues in Indian Labour Policy*.
5. Giri, V.V.: *Labour Problems in Indian Industry*

# Labour Laws & Legislation

Course Code: COM22406DCE	Max. Marks : 100
M.Com : 4 <sup>th</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module – I

Labour Welfare, Scope, Theories, Principles, Statutory and Non – statutory labour welfare: Intra – mural and extra – mural welfare. Agencies of Labour Welfare: State, Employer, Trade Unions, Voluntary Agencies. Labour legislation: Objectives, Principles, Classification, Evolution of labour’ legislation in India, Impact of ILO.

## Module – II

Concept of Gratuity under the payment of Gratuity Act 1972, procedure for settlement of disputes and information machinery under the Act. Concept of Minimum Wages 1948; procedure fixation of Working Hours, procedure for Enforcement payment of Minimum wage, Payment of Wages; procedure for Ensuring payment of wages; Authorised deductions.

## Module – III

Payment of Wages Act 1936: Aims, Objective and Scope; Payment of Bonus Act 1965 Workmen's Compensation Act 1923: Nature and extent of Compensation of workers suffering an injury in course of employment; variants and disablement; social and Social Insurance.

## Module – IV

Employee’s provident fund 1952: applicability, authorities, their powers and functions, contribution of the fund, recovery of money due, penalties and offences by companies, exemptions. voluntary & statutory / compulsory welfare measure, role & functions of Labour Welfare Officer.

# Marketing Communication

Course Code: COM22407DCE

**Course Title:** Marketing Communication

**Course Type:**

Discipline Centric  
Elective

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>	*	<b>Semester 4</b>

## The Course Objective

This course will equip the students with knowledge about the nature, purpose and complex construction in the planning and execution of an effective Integrated marketing Communications (IMC) programme. Students will learn about various tools of marketing communications and the importance of coordinating them for an effective marketing communications program.

## Course outcome:

After going through this course, the students are expected to develop a clear understanding, knowledge and skills in the field of Marketing Communications.

## Text Books:

1. Belch, G. E., Belch, M. A., & Purani, K. (2010), *Advertising and Promotions – An Integrated Marketing Communications Perspective (7<sup>th</sup> ed.)*, Tata McGraw Hill.
2. Clow, K. K., & Baack, D. (2007), *Integrated Advertising, Promotion and Marketing Communication (3<sup>rd</sup> ed.)*, Prentice Hall of India.
3. Sandage, C. H. and Fry Burger (2006), *Advertising – Theory and Practice*, Prentice Hall of India, New Delhi.
4. Aaker, David, et. Al., (2008), *Advertising Management*, Prentice Hall of India, New Delhi.

# Marketing Communication

Course Code: COM22407DCE	Max. Marks : 100
M.Com : 4 <sup>th</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module – I

Promotion as Marketing Communications. Advertising – Introduction, Nature and Importance; Communication Process and Model; Types of Advertising, The Organization of Advertising Departments and Agencies; Advertising Decisions – Setting Objectives, Budget decisions, Media Selection; Evaluating Advertising Effectiveness – Pre and Post tests.

## Module – II

Personal Selling as means of Communication. Personal Selling – Relative Importance as Compared to other Forms of Promotion. Personal Selling, Salesmanship and Sales Management. Process of Effective Selling – Product and Customer Knowledge; Role of Personnel Selling in Customer Relationship Management.

## Module – III

Sales Promotion as Means of Communication. Scope and role of sales Promotion – Definition- Objectives of Sales Promotion. Sales Promotion techniques – Trade Oriented and Consumer Oriented. Sales Promotion – Requirement Identification – designing of Sales promotion Campaign – Involvement of Salesmen and Dealers.

## Module – IV

Public Relations – Objectives, Scope and Functions of Public Relations (PR). Integrating PR into Promotional Mix. Public Relations – Advantages and Disadvantages. Publicity – Objectives, Tools and Goals of Publicity. Difference between Marketing, PR and Publicity, Direct Marketing – Types, Advantages and Disadvantages. On-line Marketing – Relative Advantages and Disadvantages.

# Strategic Cost Management

Course Code: COM22408DCE

Course Title: Strategic Cost Management Course Type:

Discipline  
Centric Elective

## Course Level:

Year 1:		Semester 1		Semester 2
Year 2:		Semester 3	*	Semester 4

## The Course

### Course Objectives:

The main aim of this course is to familiarize the students with the concepts and techniques of Strategic Cost Management (SCM). The broad course objectives are the following:

1. To have a good knowledge of various Strategic Cost Management concepts and techniques used for managerial decision making.
2. To understand the application of these techniques in managerial decision making.
3. To build the capacity of the students for better decision making using SCM tools..

### Course Outcomes:

After going through this course, the students are expected:

1. To have knowledge and skills relevant to strategic management of costs in corporate.
2. To learn the application of various Strategic Cost Management techniques in the fields of Target Costing, Quality costs, Life-Cycle Costs, Activity Based Costing, Theory of Constraints, Value Chain Analysis, Benchmarking, etc.

### Text Books:

1. Shank, J K and Govindrajana V, "Strategic Cost Management", The Free Press, New York.
2. Brinker Barry J (edited), "Guide to Cost Management", John Wiley & Sons, New York.
3. Kaplan, R S and Anderson S R, "Time Driven Activity Based Costing", Harvard Business School Press, Boston.
4. Young, S Mark (edited), "Readings in Management Accounting", Prentice Hall.
5. Ravi M Kishore, "Advanced Management Accounting", Taxman, Delhi.
6. Sexana C D & Vishist V K, "Advanced Management Accounting", Sultan Chand & Sons, Delhi.

# Strategic Cost Management

Course Code: COM22408DCE	Max. Marks : 100
M.Com : 4 <sup>th</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module – I

Strategic Cost Management: Traditional Cost Management vs. Strategic Cost Management (SCM), Role of Strategic Cost Analysis & Management in Strategic positioning of business. Factors influencing SCM. Activity based cost management system, Cost and profit analysis under ABC; Product profit analysis, Customer profit analysis and segment profit analysis; Role of ABC in strategic cost management and developing corporate strategy. Activity Based Management: Areas in which ABM can be used. Techniques of ABM, Implementing ABM; Activity based budgeting: Concept & process of ABB.

## Module – II

Target Costing: Concept, Features and Principles; Phases of Target Costing- Planning and design phase, Development phase; Commercial phase, Process of target costing. Computation of target cost and target price.

Life Cycle Costing: Stages of product life cycle (PLC), Classification of life cycle costs- Initial cost, Launch cost and operating cost; Upstream costs, Downstream costs. Behavior of sales, Costs and profits in each stage of (PLC); Computation and reporting of life cycle costs in each stage of PLC; Developing strategies as per requirements at each stage of LPC. Kaizen costing: Concept and procedure for implementation.

## Module – III

Quality Costs Management: Concept, Types of quality costs; Measurement, Reporting and management of quality costs (with numerical problems). Total Quality Management (TQM): Features & implementation.

Just in Time: Philosophy of JIT, Sources of waste, Aims and features of JIT, Methodology in implementing JIT; Impact of JIT on various components of costs; Impact of JIT on product prices; Performance measurement in a JIT system using numerical problems. Kanban system: Principles of Kanban.

## Module – IV

Theory of Constraints/Throughput Accounting: Concept, Steps in implementation. Role of TOC and throughput analysis in decision making. Benchmarking; Concept and procedure of benchmarking. Types of bench marking, Pre-requisites for effective benchmarking, Uses and applications of benchmarking in decision making. Value Chain Analysis: Concept, Grouping of activities under benchmarking, Assessing the competitive advantage, Application of VCA in decision making.

# Introductory Econometrics for Research

Course Code: COM22409DCE

**Course Title:** Introductory Econometrics for Research

**Course Type:**

Discipline Centric Elective
-----------------------------------

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>	*	<b>Semester 4</b>

## The Course

### Course Objectives:

*This course aims to:*

1. acquaint learners with necessary knowledge and skills useful for mathematical modeling of real life complexities;
2. understand and appreciate empirically the underlying logic of various issues of the Theory of Finance;
3. provide with opportunity to analyse problems concerning decision making by applying some of the well-known software packages like, MS-EXCEL, GRETL, R, EViews, SPSS, STATA etc. on real-life data.

### Course Outcomes

Upon successful completion of the course "Introductory Econometrics for Research," students are expected to be able to:

1. Apply regression techniques so as to analyse relationships between economic and financial variables.
2. Use the Ordinary Least Squares (OLS) method for estimating regression models and understand its properties.
3. Implement multiple regression models and test hypotheses related to parameters.
4. Conduct time-series analysis using ARMA, ARIMA, and VAR models.
5. Apply econometric software packages such as MS-EXCEL, GRETL, R, EViews, SPSS, and STATA.

### Text Books:

1. Damodar N. Gujarati, 'Basic Econometrics', McGraw Hill Latest Edition
2. Chris Brooks, 'Introductory Econometrics for Finance', Cambridge University Press, Latest Edition.
3. Jeffrey M. Wooldridge, 'Introductory Econometrics: A Modern Approach' Latest Edition.
4. Econometrics for Dummies: Roberto Pedace, John Wiley & Sons Inc. USA.
5. Analysis of Financial Time Series: Ruey S. Tsay, John Wiley & Sons Inc. USA.
6. Relevant Research papers as suggested by the faculty concerned.

# Introductory Econometrics for Research

Course Code: COM22409DCE	Max. Marks : 100
M.Com : 4 <sup>th</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

## Module – I

Econometrics concept, types of data, Basic ideas related to modeling economic and financial problems, its nature and applications, Regression, Regression versus correlation, Simple Regression, assumptions underlying the Classical linear regression model, Least Square Estimation and BLUE: properties of OLS estimator.

## Module – II

Multiple Regression Model and its assumptions; Hypothesis Testing Related to Parameters – Simple and Joint, and its application in Business, Accounting and Finance. Introducing Dummy Variables to model qualitative/Binary/Structural changes. Regression Models with Limited Dependent Variables - Logit, and Probit Models.

## Module – III

Violations of assumptions and their identification, their impact on parameters; tests related to parameters and impact on the reliability and the validity of inferences in case of violations of Assumptions; methods to take care of violations of assumptions. Pooling of time-series and cross section: Fixed Effects versus Random Effects.

## Module – IV

Times Series Analysis: Stochastic processes, Tests of stationary, incorporating structural breaks. Co-integration and Causality Tests, ARMA, ARIMA and VAR models, Historical volatility, unconditional versus conditional forecasts, ARCH and GARCH models, Asymmetric GARCH models: EGARCH, TGARCH, GARCH-in-Mean, forecast accuracy and efficiency tests.

# Financial Derivatives

## Course Code: 22410DCE

**Course Title:** Financial Derivatives

**Course Type:**

DCE

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>	*	<b>Semester 4</b>

## The Course

### Course Description:

The course is designed to acquaint students with Derivative market financial instruments. Through this course, the learner is expected to gain a fair understanding of derivative instruments and their mechanics. Derivatives are considered a vital segment of every financial market. The markets would be incomplete if they do not provide means for hedging risk to investors. In that sense, derivatives are the financial instruments that help investors to hedge their unwanted risks. This course will touch both over the counter bilateral derivatives as well as exchange traded instruments. The students to this course will have the opportunity to learn risk management techniques through use of derivatives. Such understanding would help them better manage financial instruments or investments in the modern day financial markets.

### Objectives:

- 1.To acquaint the students with various derivative financial instruments and how they work;
- 2.To learn how to value and price such contracts.
- 3.To gain knowledge about use of derivatives for hedging.

### Course Outcomes:

After going through this course, the students are expected to develop a clear understanding, knowledge and skills in the field of Derivative instruments. The learner is expected to specifically know:

- 1.Main concepts and issues about derivative instruments in Finance.
2. Learn how derivatives trade.
3. Derivatives contract pricing and valuation.
4. How derivatives can act as good hedging tools.

## Skills to be developed throughout the Course:

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, practice sessions, Class Room presentations and seminar sessions. While working on Case Studies student's creative skills and their abilities will get honed which shall help him in practical life situations. Learners are encouraged to make use of IT facilities particularly web sites to support research and readings.

## The Learning Resources:

The following shall comprise the learning resources

### Text Books

Author	Title	Publisher	year	Latest Edition to be procured
Kumar SSS,	Financial Derivatives	Prentice Hall India Learning Private Limited	2007	
Bhalla, V.K	Financial Derivatives: Theory, Concepts and Problems	Prentice Hall India Learning Private Limited	2005	
Prakash Yaragol	Financial Derivatives: Text And Cases	Vikas Publishing House	2018	
Parasuraman N.R.	Fundamentals of Financial Derivatives	Wiley India Pvt. Ltd	2014	
Sundaram Janakiramanan	Derivatives and Risk Management	Pearson Education India	2008	

# Financial Derivatives

Course Code: COM22410DCE	Max. Marks : 100
M.Com : 4 <sup>th</sup> Semester	Term End Exam: 80
	Continuous Assessment: 20

- 1. Introduction to Derivative Markets:** Evolution, Economics benefits of Derivatives, Myths about Derivatives. Types of Derivatives, Over-the-counter Derivatives, Exchange Traded Derivatives. Derivative Trading, Types of orders, Contract size, Lot size and Tick size, Open Interest, Short-selling. Clearing Houses, Margins.
- 2. Forward & Futures Contract:** Pricing Forward and Futures Contract, Hedging with Futures and Forwards, Optimal Hedge Ratio, Interest Rate Futures: Specification and Settlement. Stock Index Futures, Pricing and Settlement. Repo: Types of Repo, Synthetics using Repos, Repo Market Strategies.
- 3. Option Contracts:** Definition and notation, Payoff and Moneyness of Options. Option Premium, Settlement of Option Contracts, Put-Call parity, Determinants of Option's price, Option as Volatility instruments, The Greeks and their uses, Binomial Option pricing model, Option trading strategies:
- 4. Swaps:** Interest Rate FRAs, MIBOR and other benchmarks, Forward Rate Agreements, Mechanics for interest rate swaps, economic motives for swaps, Pricing and valuations of swaps, Uses of Interest Rate Swaps, Risk associated with swaps, exiting from a swap contract.

## Suggested Readings:

- Kumar SSS, *Financial Derivatives*, PHI Learning Private Limited.
- Gupta S. L., *Financial Derivatives*, PHI Learning Private Limited.
- Robert W. Kolb & James A. Overdahl, *Financial Derivative*, Wiley Publishers

# Leadership and Personality Development

Course Code: COM22110GE

Course Title: Leadership & Personality Development Course Type:

Generic  
Elective

## Course Level:

Year 1:	*	Semester 1		Semester 2
Year 2:		Semester 3		Semester 4

## The Course

The effect of human personality on the functional efficiency of the organization has seen a huge surge and recognition in the recent past. The management scholars argue that human personality can be modified and developed in tune with the requirements of the modern complex organizations. Accordingly, a variety of efforts were made by the management professionals in designing courses that could help in bringing a desired and positive change in the personality. The present course therefore is also aimed at helping the students to screen out those barriers that stand in the way of their personal development and efficiency. Specifically the course aims at:

### Objectives:

1. *equipping students with necessary concepts and techniques for inculcating in them effective leadership skills;*
2. *helping students identify their individual leadership styles and construct personal leadership profile for themselves;*
3. *helping students identify their personality and work towards its development;*
4. *helping students augment their effective interpersonal skills.*

### Course Outcomes:

After going through this course, the students are expected to:

1. *Have a deeper understanding of their strengths and weaknesses and personality traits as a means to develop effective interpersonal relationships;*
2. *Acquire leadership qualities like strategic thinking, effective communication and team management necessary for driving organizational success; and*
3. *Be able to understand the dynamics of stress, various conflict levels and conflict resolution styles for augmenting the organizational and employee health for better productivity.*

## Text Books:

1. Stephen P. Robbins, Timothy A. Judge. Organizational Behavior. Pearson Education, New Delhi. 15<sup>th</sup> Edition.
2. HBR's 10 Must Reads: On Leadership (2011). Harvard Business Press.
3. BarunMitra (2016), *Personality Development and Soft Skills*.Oxford University Press. New Delhi.
4. Daniel Goleman, Richard Boyatzis, Annie McKee (2013). Primal Leadership: Unleashing the Power of Emotional Intelligence. Harvard Business Review Press; 10 Anv edition.
5. Gopalaswamy Ramesh. *The Ace of Soft Skills: Attitude, Communication and Etiquette for Success*. Pearson Education.

# Leadership and Personality Development

Course Code: COM22110GE	Max. Marks : 50
M.Com : 1 <sup>st</sup> Semester	Term End Exam: 40
	Continuous Assessment: 10

## Module - I

Leadership – Meaning & Concept. Categories of leaders: Entrepreneurial, Administrative, and Political. Leadership styles. Theories of Leadership. Identification of individual leadership styles; Construction of personal leadership style profiles.

Personality - Meaning & Concept; Basics of Personality, Theories on Personality Development; An overview of Personality determinants. Evaluation of Personality.

Interpersonal Relationship- Introduction, Analysis of different ego states; Analysis of Transactions, Analysis of Strokes, Analysis of Life position.

Communication – Introduction, Communication as a process, Model for Communication process; Types of Communication. Effective Communication – Barriers to effective Communication, Overcoming barriers to Communication.

## Module - II

Stress Management –Introduction, Causes of Stress; Impact of Stress; Managing Stress,

Time Management - The concept of time and time management; Causes of time mismanagement, time management matrix – hard work. smart work; Different time management styles – time cheaters and beaters; Steps towards better time management.

Conflict – Introduction; Types of Conflict; Levels of conflict –Intrapersonal Conflict, Interpersonal Conflict, Intra-group Conflict, Inter-group Conflict – Intra- Organizational Conflict. Managing Conflict and Conflict Resolution Styles.

# Sales Management

# Understanding Capital Markets

Course Code: COM22112GE

**Course Title:** Understanding Capital Markets

**Course Type:**

Generic  
Elective

**Course Level:**

<b>Year 1:</b>	*	<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

The Course

## Course Description:

The course is intended to acquaint the students with necessary knowledge and expertise required for dealing in the capital markets. Understanding various components of a capital market which include primary and secondary market are essential for everyone in the modern times. A capital market as a place meant for making of investments in financial assets for long term periods is dynamic entity where regulations keep on continuously changing in response to the new challenges and threats. Today's capital markets operate on free market concept and transcend to other nations with lesser restrictions. The course aims to demystify the complications involved in the financial dealings in capital markets, besides educating students about the mechanism of operations of Indian capital market in particular.

## Objectives:

4. To build conceptual understanding about various aspects of a capital market with particular reference to India;
5. To grasp mechanics of various financial instruments, financial services and institutions operative in capital market;
6. To understand mechanism of operations of Indian capital market.

## Course Outcome:

After going through this course, the students are expected to develop a clear understanding and knowledge about the functioning of Indian Capital market.

## Skills to be developed throughout the Course:

Throughout the course, students will develop their understanding and expertise in various matters relating to their dealing in the capital market. After completion of the course, students are expected to have good command over handling of various financial matters like dealing with a bank, operating Demat accounts, transacting in securities in the primary market and trading of securities in the secondary market. The students are also expected to have better understanding of various entities and participants dealing in the capital market.

## The Learning Resources:

The following shall comprise the learning resources

### Text Books

Author	Title	Publisher	Year
Pathak, Bharti V.	The Indian Financial System, 2 <sup>nd</sup> Edition	Pearson Education, India	2008
Khan, M. Y.	Indian Financial System	Tata McGraw Hill New Delhi	2007
Bhole, L. M.	Indian Financial System	Tata McGraw Hill New Delhi	2008
Bhole, L. M.	Financial Institutions & Markets Structure, Growth & Innovations	Tata McGraw Hill New Delhi	2005

Desai, Vasant	The Indian Financial System	Himalaya Publishing House, New Delhi	2005

## Understanding Capital Markets

<i>Course Code: COM22112GE</i>	<i>Max. Marks : 50</i>
<i>M.Com : 1<sup>st</sup> Semester</i>	<i>Term End Exam: 40</i>
	<i>Continuous Assessment: 10</i>

### Module – I

Capital Market: Functions and structure of a modern capital market, instruments, and institutions and of capital market, depository and its role, stock exchange and its role, SEBI as market regulator, need of a regulator. The Primary Market Process: Red Herring Prospectus, Main intermediaries and their role in IPO. IPO application and Allotment Process, The Book Building Mechanism.

### Module – II

The Trading Process: Main requirements for trading: trading and Demat accounts, screen based trading, margin requirements, types of capital market orders, The Settlement Process, Rolling Settlement Scheme, Conduct of auctions for failed settlements. Listing and delisting of securities in the stock market: purpose and benefits to the stakeholders.

# Fundamentals of Accounting

Course Code: *COM22113GE*

**Course Title:** Fundamentals of Accounts

**Course Type:**

Generic  
Elective

## Course Level:

<b>Year 1:</b>	*	<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

## The Course

### Course Description:

As this course leads to accreditation, it is not a ‘taster course’ as such. It is more demanding than most Level 1 courses and does require you to be highly committed to your studies, as it covers both introductory bookkeeping and accounting within a relatively short time period. This module uses the terminology of current UK GAAP (Generally Accepted Accounting Practice), which is the terminology used predominantly in the UK by small and medium-sized businesses. The study of International Financial Reporting Standards (IFRS) is beyond the scope of this course. The content of this course consists of the following:

- the basic principles, concepts, ethics, limitations and techniques central to Fundamentals of Accounting.
- the role of Fundamentals of Accounting within for-profit organisations, not-for-profit organisations and the public sector
- the relationship between Fundamentals of accounting, including similarities and differences
- careers in bookkeeping and accounts, and the requirements for professional qualifications in the two subjects.

### Objectives:

To enable the students to:

1. Acquire knowledge of basic concepts and conventions of Fundamentals of Accounting
2. Understand business transactions and their effects on business operations.
3. Study different documents used for business transactions by knowing their contents and formats.
4. Know and practice the basic principles of Fundamentals of Accounting
5. Understand the working and maintenance of various books of account.
6. Develop the skill of calculations, accuracy And posting to books of Accounts

7. Understand the effect of transitions on final accounts.
8. Maintain the Books of accounts with computerized software.

### **Course Outcome:**

After going through this course, the students are expected to develop a Clear understanding, knowledge and skills in the field of Fundamentals of Accounting.

### **Skills to be developed throughout the Course:**

Perform basic operations with numbers, as required for bookkeeping and accounting perform basic operations with Excel spreadsheets, as required for bookkeeping and accounting complete all the steps required in a double-entry bookkeeping and accounting system from recording financial transactions in books of prime entry to preparing the profit and loss account/income statement and balance sheet a brief introduction to Sage accounting software develop the general practical and professional skills of bookkeeping and accounting develop awareness of relevant ethical issues for bookkeepers and accountants.

### **The Learning Resources:**

The following shall comprise the learning resources

#### **Text Books**

<b>Author</b>	<b>Title</b>	<b>Publisher</b>	<b>year</b>	<b>Latest Edition to be procured</b>
P.C. Tulsian	Financial Accounting	Tata McGraw Hill Publishing House, New Delhi	2013

# Fundamentals of Accounting

Course Code: COM22113GE	Max. Marks : 50
M.Com : 1 <sup>st</sup> Semester	Term End Exam: 40
	Continuous Assessment: 10

## Module – I

Introduction of Book-keeping and Accountancy: Meaning and definition, Objectives, Importance and Utility, Difference between Book-Keeping and Accountancy, Basis of Accounting Cash basis and Accrual basis.

Basic Accounting Terminologies: Business Transactions: Cash Transactions and Credit Transactions, Profit, loss-Operating and Non-operating profits, Normal gains and abnormal gains with examples. Difference between profit and Income , Assets, Liabilities, Net-worth/ Owners Equity.

Assets: Fixed/Current/Tangible/ Intangible/fictitious.

Accounting Concepts, Conventions and Principles

Journal: Meaning, Importance and utility of Journal, Specimen of Journal, Writing of Journal entries and Subsidiary Books.

## Module – II

Ledger: Meaning, need and contents of ledger be explained, Specimen of ledger, Posting of entries from Subsidiary books to ledger, Balancing of ledger accounts

Trial balance: Meaning and Purpose, Specimen of Trial Balance, Preparation of Trial Balance from given balances of accounts. Final A/Cs.

# Stock Market Operations

Course Code: COM221140E

Course Title: Stock Market Operations

Course Type:

Open  
Elective

Course Level:

Year 1:	*	Semester 1		Semester 2
Year 2:		Semester 3		Semester 4

## The Course

### Course Description:

The course is designed to provide a perspective on Stock Market Operations. The subject matter encompasses the meaning of stock and stock as an investment along with different types of financial instruments. It also covers the basic market related concepts which are the base for investment. The course provides a wide spectrum of insight into realms of knowledge and furnishes a clear platform for the significance of Stock Market. Risk and Return is also an important ingredient of the course and the same stand included in the course. Besides, the course provides the concept of various types of Risks involved. Stock markets not only help mobilize savings and provide investment avenues, but they are also a good career option. This course gives us a holistic view of stock markets.

### Objectives:

1. To acquaint the students about various financial instruments;
2. To cultivate the investing skills into the students and focusing on becoming an Investor rather than being a gambler/speculator.
3. To develop the detailed understanding of the framework involved in the investment in Stock markets;

### Course Outcomes:

After going through this course, the students are expected to develop a Clear understanding, knowledge and skills in the field of Security analysis and portfolio management.

### Skills to be developed throughout the Course:

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, practice sessions, Class Room presentations and seminar sessions. Theory of Efficient Market Hypothesis.

[Knowledge, Skill]

# Mutual & Other Funds

Course Code: COM22213OE

Course Title: Mutual & Other Funds

Course Type:

Open  
Elective

## Course Level:

Year 1:		Semester 1	*	Semester 2
Year 2:		Semester 3		Semester 4

## Course Description:

This course describes the world of investments in mutual funds

## Objectives of the Course:

The main objective of this course is to develop an understanding of the students about rationale & significance of investments in mutual funds, different types of funds/ schemes and how to choose funds for investment.

## Course Outcomes

On completion of this course, students are expected to:

- Have an understanding of the structure of fund industry in India & how it operates.
- Know the landscape of fund schemes & able to analyse different schemes..
- Be able to know how yield maximum from investments in mutual funds

## Learning Resources:

### Text Books:

The prescribed text book for this paper is *Mutual Funds: A Beginners & Advanced Module by NCFM*.. However, to supplement the recommended text, you would be required to consult the following text books as well to have a comprehensive understanding of the subject:

Author	Title	Publisher	Year of Publication
Ankit G. & Jitendra	Indian Mutual Funds	Tata McGraw Hill Publishing House, New Delhi	2008
Sundaran Sankaran	Indian Mutual Funds Hand Book	Prentice Hall Delhi	2004
Jaspal Singh	Mutual Funds: Growth, Performance & Prospects	Tata McGraw Hill Publishing House, New Delhi	2005

- a) **Case Studies:** The class room teaching will be reinforced and supplemented by case studies and term end projects

## **Teaching Pedagogy:**

To achieve the learning goals set for the paper, the teaching pedagogy to be used consists of lectures, case studies, project work, presentations & assignments. For case studies, the students will be organised into teams of 3-4 members and each team would be required to make one case presentation. Each team will also have to undertake term-end project work which is intended to provide an opportunity for real world analysis. After completion of the project work, each team shall have to prepare a project report for its submission and based on this report make a power point presentation of the work. Assignments will be given after completion of each Module/ subsection which will be drawn from end-of-chapter problems in the text and occasional handouts. They are primarily for applying the knowledge acquired through lecturing and class room discussion and are due at the completion of the Module or subsection

## **Class Participation:**

Each student is expected to engage in active class participation so as to maximise his own learning experience and contribute positively to the classmates. It is important that you attend all the classes. If you miss class, your learning will be impaired. Equally important is that you can add your unique insights to class discussion.

## **Current Events:**

For meaningful understanding, it is important to keep abreast of current events that are relevant to the topics covered in the Be an aggressive consumer of such periodicals & News Papers as The Economist, The Company Secretary, Dalal Street, Wall Street, Business Standard, and Economic Times.

Although this paper schedules only two formal hours of lectures per week, students are expected to devote at least two additional hours each week in reading and revision and attend any tutorials that may be offered. We hope that you will think about issues discussed in the classroom after the lectures, read the textbook and complete the revision problems that were have assigned.

## Mutual & Other Funds

Course Code: COM22213OE	Max. Marks : 50
M.Com : 2 <sup>nd</sup> Semester	Term End Exam: 40
	Continuous Assessment: 10

### Module - I

Mutual Fund: Meaning, Benefits of Investing through Mutual Funds. Structure of Mutual Fund: Sponsor, Asset Management Company, Fund Managers & Custodian. Types of Funds, Classification of Fund Schemes.

### Module – II

Raising of Funds; Offer Document; NFO, SID, SAI; Key Information Memorandum; Drivers of Risk & Returns in a Scheme; Measures of Risk & Return in a Scheme; Quantitative measures of Fund Managers Performance; Costs of Funds. Choice between different Schemes/Funds; Sources of Data to track Mutual Fund Performance.

# Software Engineering

Course Code: *COM22214OE*

**Course Title:** Software Engineering

**Course Type:**

Open  
Elective

## Course Level:

<b>Year 1:</b>		<b>Semester 1</b>	*	<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

## The Course

### Course Description:

The course is designed to provide a perspective on Software Engineering. The Course will help students to know about practical exposure of Networking which is used all over the world.

### Objectives:

The overriding objective of the course is to enhance the ability, comprehensive understanding and analysis of the Concept of Software Engineering. Specifically, the course aims at:

1. Clarifying the conceptual & theoretical framework regarding the various aspects of Networking.
2. Acquainting the students with the application of Software Engineering in the field of business.

### Course Outcomes:

After going through this course, the students are expected to develop a Clear understanding, knowledge and skills in the field of networking.

### Skills to be developed throughout the Course:

Students will develop their analytical and oral communication skills via case study approach carried out in tutorials, practice sessions, Class Room presentations and seminar sessions. While working on Case Studies student's creative skills and their abilities will get honed which shall help him in practical life situations. Learners are expected to learn the nifty skills of developing an acumen of using Technical Analysis software to enable them to track the market movements and predict probable stock prices. Learners are encouraged to make use of IT facilities particularly web sites to support research and readings.

## The Learning Resources:

The following shall comprise the learning resources

### ***Text Books***

1. Software Engineering Concepts 1997 Edition
2. *Author:* RICHARD FAIRLEY Publishers: TATA Mc GRAW-Hill Edition.
3. Software Engineering VI Edition, *Author:* ROGER S . PRESSMAN Publishers TATA McGRAW - HILL International Edition.
4. *Software Engineering Programs Documentation Operating procedures*
5. *Author:* K.K. AGGARWAL & YOGESH SINGH Publishers: NEW AGE INTERNATIONAL PUBLISHERS

## Software Engineering

Course Code: COM22214OE	Max. Marks : 50
M.Com : 2 <sup>nd</sup> Semester	Term End Exam: 40
	Continuous Assessment: 10

### **Module – I**

Introduction to Software Engineering: Definitions - Size Factors - Quality and Productivity Factors - Managerial Issues - Planning a Software Project: Defining the Problem - Goals and Requirements - Solution Strategy - Planning the Development Process : Various Models - Planning an Organizational Structure - Planning Activities.

### **Module – II**

Software cost estimation: Introduction - Software Cost Factors - Software Cost Estimation Techniques - Stating Level estimation - Estimating Software Maintenance Costs Software Requirements Definition - Software Requirements Specification - Specification Techniques - Languages and Processors for Requirements.

# Personal Financial Planning

Course Code: COM22215OE

**Course Title:** Personal Financial Planning

**Course Type:**

Open  
Elective

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>	*	<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>		<b>Semester 4</b>

## The Course

# Corporate Social Responsibility

Course Code: *COM22313GE*

**Course Title:** Corporate Social Responsibility    **Course Type:**

Generic Elective
---------------------

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>	*	<b>Semester 3</b>		<b>Semester 4</b>

## The Course Description:

Corporate Governance in its common parlance refers to the rules, processes or laws by which businesses are operated, regulated and controlled. The concept of Corporate Governance; emerged as a response to corporate failures and widespread dissatisfaction with the way many corporate function, has become one of wide and deep buzzword in and around the corporate of the world. However, it did not gather momentum until the dawn of 1990, it has become very popular phenomenon following corporate upheavals in the US, East Asian financial crisis of 1997, and the huge bankruptcies and financial scandals of early 2000s in the US, e.g, Enron & MCI Inc(formerly WorldCom).

Today, the role of Corporate Governance mere administration or regulation and control, but to model itself to keep to the right path by establishing: a good and ethical sense of purpose of the business structure the business processes with well defined objectives to serve shareholders besides the stakeholders, and also to sensitize that organization to global business changes and regulations. Similarly, the concept of CDR proposes that a private corporation has responsibilities to society that extend beyond making a profit.

## Course Objectives:

This course is aimed to acquaint students with the nitty-gritty involved in Corporate Governance and familiarize them with the good and ethically sound Corporate Governance. This course will enable students to understand, the role of Board of Directors, the Boards Composition and Continuum, the role of top management and other stakeholders to ensure smooth and ethically equipped corporate governance.

Corporate social responsibility has become a vital part of the business conversation. The issue is not whether companies will engage in socially responsible activities, but how. This the main objective of the course is to enable students about the vital role of corporate governance and CSR in bringing about efficiency effectiveness and transparency in the organization. Besides, they will understand what relationship the CSR has with the reputation of the business house.

On completion of this course, students are expected to:

- Demonstrate intention towards entrepreneurship as a career choice.
- Understand niceties of an entrepreneurship and what traits/ competencies are essential for success in entrepreneurship.
- Be able to undertake business planning for launching a business venture.
- Know how to plan and organise an industrial venture.
- Understanding the post launching management of a business venture

## Learning Resources:

### **Text Books:**

The prescribed text book for this paper is *Entrepreneurship by Chatterjee*, 10<sup>th</sup> edition, Vikas Publications Ltd, New Delhi. However, to supplement the recommended text, you would be required to consult the following text books as well to have a comprehensive understanding of the subject:

<b>Author</b>	<b>Title</b>	<b>Publisher</b>	<b>Year of Publication</b>
Vasant Desai	Dynamics of Entrepreneurship Development	Tata McGraw Hill Publishing House, New Delhi	2008
David H. Holt	Entrepreneurship: New Venture Creation	Prentice Hall Delhi	2004
Satish Taneja & S. L. Gupta	Entrepreneurship Development: New Venture Creation	Tata McGraw Hill Publishing House, New Delhi	2005
A. Sahay & M. S. Chhikara	New Vistas of Entrepreneurship: Challenges & Opportunities	Taxmann Publication (P.) Ltd., Delhi	2009

b) **Case Studies:** The class room teaching will be reinforced and supplemented by case studies and term end projects

### **Teaching Pedagogy:**

To achieve the learning goals set for the paper, the teaching pedagogy to be used consists of lectures, case studies, project work, presentations & assignments. For case studies, the students will be organised into teams of 3-4 members and each team would be required to make one case presentation. Each team will also have to undertake term-end project work which is intended to provide an opportunity for real world analysis. After completion of the project work, each team shall have to prepare a project report for its submission and based on this report make a power point presentation of the project work. Assignments will be given after completion of each Module/ subsection which will be drawn from end-of-chapter problems in the text and occasional handouts. They are primarily for applying the knowledge acquired through lecturing and class room discussion and are due at the completion of the Module or subsection

### **Class Participation:**

Each student is expected to engage in active class participation so as to maximize his own learning experience and contribute positively to the classmates. It is important that you attend all the classes. If you miss class, your learning will be impaired. Equally important, you cannot add your unique insights to class discussion.

### **Current Events:**

For meaningful understanding, it is important to keep abreast of current events that are relevant to the topics covered in the course e.g. entrepreneurship as a career choice, policies aimed promoting entrepreneurship, emerging environment of entrepreneurship, entrepreneurial competencies etc. Be an aggressive consumer of such periodicals & News Papers as The Economist, The Company Secretary, Entrepreneurship Development, Business Standard, and Economic Times.

Although this paper schedules only three formal hours of lectures per week, students are expected to devote at least three additional hours each week in reading and revision and attend any tutorials that may be offered. We hope that you will think about issues discussed in class after the lectures, read the textbook and complete the revision problems that we have assigned.

## **Entrepreneurship Development**

<i>Course Code: COM22318OE</i>	<i>Max. Marks : 50</i>
<i>M.Com : 3<sup>rd</sup> Semester</i>	<i>Term End Exam: 40</i>
	<i>Continuous Assessment: 10</i>

### **Module – I**

Entrepreneurship as a Career Choice; Who is an Entrepreneur; Types of Entrepreneurs; Interpersonal Competencies/Traits; Theories of Entrepreneurship. (Case Study of Successful Entrepreneurs & Interaction with of Leading Entrepreneurs)  
Spotting & Crafting a Business Opportunity; Business Planning; Conducting Feasibility Study; Preparation of Project Report; Sources of Finances.( Case Study on Feasibility - cum- project report & Brainstorming Sessions).

### **Module – II**

Definition of MSMEs in India; Procedure for Registration; Incentives & Subsidies; Support Institutions: DICs, SFCs, SICOP, FDC, J&K EDI & SISI.  
Interaction with the Authorities of different Support Institutions.

# Economic Globalization

Course Code: COM22319OE

**Course Title:** Economic Globalization

**Course Type:**

Open Elective
------------------

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>	*	<b>Semester 3</b>		<b>Semester 4</b>

## Course Description:

*The course is designed to provide a perspective on Globalisation and World Trade. The whole course is divided into two parts. The first part comprising of two Units throws light on various aspects of Globalisation, its Advantages & disadvantages. Year 2:		Semester 3	*	Semester 4

## The Course

### Course Description:

The course is intended to acquaint the students with necessary knowledge and expertise in the area of basic financial econometrics. Understanding of financial econometrics is expected to help a learner to engage in empirical research in the area of finance particularly financial markets. The course is aimed to train a learner towards understanding of how to develop econometric models to interpret complex relationships of various market variables in the area of financial markets.

### Objectives:

1. To understand basics of econometrics and linear regression model;
2. To learn implementation of linear regression for analysing time series data.

### Course Outcomes:

After going through this course, the students are expected to develop a clear understanding and knowledge about use of econometrics in the area of financial markets.

### Skills to be developed throughout the Course:

Throughout the course, students will develop their understanding and expertise in various matters involved in development of econometrics models in time series forecasting.

## The Learning Resources:

The following shall comprise the learning resources

### Text Books

Author	Title	Publisher	Year
Dawn C. Porter , Damodar N. Gujarati, Sangeetha Gunasekar	Basic Econometrics, 5 <sup>th</sup> Edition	McGraw Hill Education (India) Private Limited	2010
Brooks C	Introductory Econometrics for Finance 1st Edition	Cambridge University Press	2002
Fabozzi Frank J. Sergio M. Focardi ,Svetlozar T. Rachev	The Basics of Financial Econometrics: Tools, Concepts, and Asset Management Applications	John Wiley & Sons	2014
Taylor	Modeling Financial Time Series (English) 2nd Edition	World Scientific Publishing Ltd	2005

## Basic Financial Econometrics

<i>Course Code: COM22413GE</i>	<i>Max. Marks : 50</i>
<i>M.Com : 4<sup>th</sup> Semester</i>	<i>Term End Exam: 40</i>
	<i>Continuous Assessment: 10</i>

### Module – I

Concept of econometrics, Financial econometrics and economic econometrics, Types of data, Returns in financial modelling, Steps involved in formulating an econometric model, Econometric packages for modelling financial data, understanding regression model, Regression versus correlation.

### Module – II

Simple linear regression, Estimation of an optimal hedge ratio Properties of the OLS estimator, Precision and standard errors. An introduction to statistical inference. A special type of hypothesis test: the *t*-ratio. The assumptions underlying the classical linear regression model, diagnostic tests.

# Regional Economic Integration

Course Code: COM22414GE

Course Title: Regional Economic Integration

Course Type:

Generic  
Elective

## Course Level:

Year 1:		Semester 1		Semester 2
Year 2:		Semester 3	*	Semester 4

## The Course

### Course Description:

The course is aimed to create an awareness with regard to the rationale of creating regional trade blocs. The course, in addition, would dwell in depth into various trade blocs like SAARC, NAFTA, ASEAN, EU. The course is also aimed to aware the students clientele to understand why WTO authorize the creation of trade blocs when the policy goes against the well established principle of non-discrimination.

### Objectives:

1. to make the learners aware about various types of regional economic integrations and the benefits of trade integrations.
2. To make the learners aware about the theories of regional economic integrations.
3. To make the learners understand how WTO approves the creation of trade blocs even though it contravenes to the policy of non-discrimination.

### Course Outcomes

After going through this course students are expected to:

1. *Enhance their understanding about the widespread regional economic agreements.*
2. *Comprehend the rising opportunities and challenges that the world economy is witnessing due to this phenomenon.*

### Text Books:

1. *Dennis M. P. McCarthy, 2006: International Economic Integration in Historical Perspective, London: Routledge,*
2. *Krugman P., Obstfeld M., Melitz M. (2012), International economics, 9th ed.*
3. *Shanker, O., Luo, Y., & Chi, T., International Business (3rd eds), Routledge, New York.*
4. *Edward D. Mansfield and Helen V. Milner, 1997: The Political Economy of Regionalism. New York: Columbia University Press,*
5. *Douglas Webber, 2001: Two Funerals and a Wedding? The Ups and Downs of Regionalism in East Asia and Asia-Pacific after the Asian Crisis, The Pacific Review 14(3): 339-372.*
6. *Jon C. Pevehouse, 2002: Democracy from the Outside-In? International Organizations and Democratization, International Organization 56(3): 515-549.*

## Regional Economic Integration

<i>Course Code: COM22414GE</i>	<i>Max. Marks : 50</i>
<i>M.Com : 4<sup>th</sup> Semester</i>	<i>Term End Exam: 40</i>
	<i>Continuous Assessment: 10</i>

### Module - I

Economic integration, Meaning, benefits, causes (Economic & Political), theories of economic integration: Free Trade Agreement, Custom Union, Common Market, Economic Union, Political Union, regional economic blocks; EU, NAFTA, SAARC, BRICS, ASEAN.

### Module - II

World of regionalism; Old and New, regional integration an exception to WTO agreements; political and economical implications, Political Economy of regional integration with special reference to Eurasia, regionalism and world economy, Trade Wars and future world of regions.

# Emotional Intelligence

Course Code: *COM22415GE*

**Course Title:** Emotional Intelligence

**Course Type:**

Generic Elective
---------------------

**Course Level:**

<b>Year 1:</b>		<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>		<b>Semester 3</b>	*	<b>Semester 4</b>

**Course Description:**

Emotions can influence the way we act and react in the workplace. Emotional Intelligence is the ability to recognise our behaviours, moods, and impulses, and manage them in a positive way so that we can communicate effectively, empathize with others, manage stress, overcome challenging situations and defuse conflict. Emotional intelligence helps one to build stronger relationships, succeed at work, and achieve ones career and personal goals. Thus, this course is intended to focus primarily among other things on the five core competencies of emotional intelligence: self-awareness, self-regulation, self-motivation; empathy, and social skills. Students will be guided to learn, develop and implement these competencies to enhance their relationships in work and life by increasing their understanding of social and emotional behaviours, and learning how to adapt and manage their responses to particular situations.

**Course Outcomes:**

- Identify the benefits of emotional intelligence.
- Learn the five core skills required to practice emotional intelligence.
- Define and practice self-awareness, self-regulation, self-motivation, empathy and social skills.
- Successfully communicate with others in a non-verbal manner. Verbally communicate with others.
- Interpret and manage ones' emotions.
- Master tools to regulate and gain control of one's own emotions.
- Articulate ones' emotions using the right language.
- Effectively impact others.
- Relate emotional intelligence to the workplace.
- Use the concepts and techniques in the workplace

## The Learning Resources:

The following shall comprise the learning resources

### Text Books

1. Tim Sparrow & Amanda Knight (2009). *Applied Emotional Intelligence: The Importance of Attitudes in Developing Emotional Intelligence*. John Wiley & Sons, USA.
2. Daniel Goleman (2009). *Working with Emotional Intelligence*. Bloomsbury Publishing, Delhi, India.
3. Daniel Goleman (2011). *Social Intelligence: The New Science of Human Relationship*. Cornerstone Digital, Penguin Random House, UK.
4. Daniel Goleman, Richard Boyatzis, Annie McKee (2013). *Primal Leadership: Unleashing the Power of Emotional Intelligence*. Harvard Business Review Press; 10 Anv edition.

## Emotional Intelligence

Course Code: COM22415GE	Max. Marks : 50
M.Com : 4 <sup>th</sup> Semester	Term End Exam: 40
	Continuous Assessment: 10

### Module – I

Emotional Intelligence – Introduction. Emotions, Attitudes and feelings: Meaning and Importance; The Ability Model of EI; The Trait Model of EI; The Mixed Model of Emotional Intelligence; Theories Associated with Emotional Intelligence. Management of emotions at the Workplace, Role of Emotional Intelligence at Work.

### Module – II

Components of Emotional Intelligence –The Self-Awareness Cluster: Understanding Feelings and Accurate Self-Assessment; The Self-Management Cluster: Managing Internal States, Impulses, and Resources; The Social Awareness Cluster: Reading People and Groups Accurately; The Relationship Management Cluster: Inducing Desirable Responses in Others.

# E-Marketing

Course Code: COM22416OE

**Course Title:** E- Marketing

**Course Type:**

Open Elective
---------------

**Course Level:**

<b>Year 1:</b>	<b>Semester 1</b>		<b>Semester 2</b>
<b>Year 2:</b>	<b>Semester 3</b>	*	<b>Semester 4</b>

**Course Description:**

*This course is aimed to familiarize the students with the concept of E-Marketing; the use of Search Engine Marketing, Online Advertising and Online Marketing Strategies.*

**Text Books:**

1. *Strauss, Judy, and Raymond Frost, “E – Marketing”, Prentice Hall*
2. *Hanson, Ward A, “Principles of Internet Marketing”, South Western College Pub. Division of Thomson Learning.*
3. *Chaffey, DF, Chadwick, Ellis, Mayer, R, and K Johnston, “Internet Marketing: Strategy, Implementation and Practice”, Prentice Hall of India.*
4. *Scott, David Meerman, “New Rules of Marketing and P R”, John Wiley and Sons.*

**Course outcomes:**

After learning this course, the students are expected to:

1. *To have an idea of key components of an e-marketing strategy, including digital channels, content, and analytics.*
2. *Identify the benefits and challenges of e-marketing for businesses.*

## E-Marketing

<i>Course Code: COM22416OE</i>	<i>Max. Marks : 50</i>
<i>M.Com : 4<sup>th</sup> Semester</i>	<i>Term End Exam: 40</i>
	<i>Continuous Assessment: 10</i>

**Module - I**

E-marketing: concept, nature, comparison with traditional marketing; Issues, challenges, and opportunities for e-marketing; Reasons for its growth and need; Popular tools/techniques of e-marketing; Bases and significance of market segmentation in an e-environment; Positioning strategies in an e-environment; E-marketing and customer satisfaction.

**Module - II**

Concept and significance of internet marketing, distinction between internet marketing and e-marketing; Website: importance, types, requisites, designing (with emphasis on the visual design of the website); Domain name branding: types and benefits; Search engine optimization: functions, types of traffic, keywords, and steps involved; Types of internet advertising; Online PR, news and reputation management.
